ANNUAL REPORT

OF THE

Secretary of Internal Affairs

OF THE

Commonwealth of Pennsylvania,

FOR THE

YEAR ENDING NOVEMBER 30, 1897.

PART I.—LAND OFFICE.
BOUNDARY LINES.
PART II.—ASSESSMENTS.
TAXES.

WM. STANLEY RAY,
STATE PRINTER OF PENNSYLVANIA.
1898.

PIA 1.2 PTS.I-II 1897

P3-1897

REPORT

OF THE

Secretary of Internal Affairs.

COMMUNICATION.

Department of Internal Affairs,
Harrisburg, February 1, 1898.

To His Excellency, Daniel H. Hastings,

Governor of the Commonwealth of Pennsylvania:

Sir: Complying with the requirements of the Constitution, I have the honor to present you herewith, for transmission to the General Assembly, reports of this Department for the year ending November 30, 1897, as follows:

Part I, Land Office.
Boundary Lines.

Part II, Assessments.
Taxes.

Very respectfully,
Your obedient servant,

JAMES W. LATTA,
Secretary of Internal Affairs.

The Department of Internal Affairs, as organized, consists of six Bureaus, designated as follows:

1. Land Office.
2. Boundary Line and Monuments.
3. Assessments and Taxes.
4. Industrial Statistics.
5. Railroads, Canals, Telegraphs and Telephones.
6. Bureau of Mines.

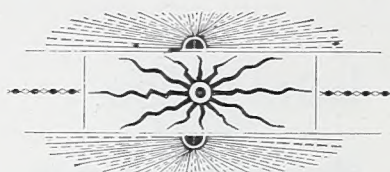

A record of the business of the department is published in five parts:

- Parts I and II, Land Office, Boundary Lines, Assessment and Taxes.
- Part III. Industrial Statistics.
- Part IV. Railroads, Canals, etc.
- Part V. Bureau of Mines.

PART I--Land Office.

Boundary Lines.

REPORT.

Department of Internal Affairs,
Harrisburg, February 1, 1898.

To His Excellency, Daniel H. Hastings,
Governor of Pennsylvania:

Sir: As required by the Constitution and law, I submit herewith a detailed report of the business of the Department for the year ending on the 30th day of November, 1897.

JAMES W. LATTA,
Secretary of Internal Affairs.

STATEMENT

Showing the number of warrants, patents and certificates to the State Treasurer issued from December 1, 1896, to November 30, 1897, both days included, with the amount of purchase money and fees for warrants, patents, etc. Also, copying fees received during the same period.

Year and Month.	Warrants.	Patents.	Certificates to State Treasurer.	Purchase money.	Warrant and patent fees.	Fees for certificates to mine foreman and assistants.	Copying fees.	Totals.
1896, December,	5	5	\$16 55	\$47 50	\$57 00	\$167 25	\$288 30
1897, January,	2	5	6	539 72	55 00	3 00	148 25	745 97
1897, February,	1	3	177 15	20 85	130 75	328 75
1897, March,	23	5	7	95 33	74 67	96 25	266 25
1897, April,	1	7	8	530 77	80 57	241 75	853 09
1897, May,	1	1	3 03	10 00	190 00	203 03
1897, June,	1	2	4	663 30	35 00	132 00	157 50	987 80
1897, July,	3	1	4	106 23	30 00	186 00	125 25	447 48
1897, August,	2	2	6	783 10	57 23	69 00	88 75	998 08
1897, September,	1	8	16	461 98	172 57	84 00	122 00	840 55
1897, October,	4	55	42	1,381 35	496 86	12 00	313 25	2,203 46
1897, November,	1	46	68	3,185 12	957 09	122 00	4,264 21
	19	138	170	\$7,943 63	\$2,037 34	\$543 00	\$1,903 00	\$12,426 97

Detailed Statement.

603 copies of surveys,	\$603 00
306 copies of patents,	306 00
199 copies of warrants,	99 50
88 searches,	22 00
68 connected drafts embracing 568 tracts,	426 00
170 copies of applications,	85 00
19 new warrants,	95 00
138 patents issued,	1,942 34
181 mine foreman's and assistant's certificates issued,	543 00
315 copies of maps,	361 50
	<hr/>
	\$4,483 34
	<hr/>

Recapitulation.

Purchase money,	\$7,943 63
Warrant and patent fees,	2,037 34
Copying fees,	1,903 00
Mine foreman's certificates,	543 00
	<hr/>
	\$12,426 97
	<hr/>

RESUME OF THE BUSINESS OF THE DEPARTMENT FOR THE
YEAR ENDING NOVEMBER 30, 1897.

Letters and Reports Received, Endorsed and Filed.

5,659 relative to land office and assessments.

2,998 relative to industrial statistics.

Letters Written, Copied and Indexed.

3,867 relative to land office, assessments and railroads.

1,926 relative to industrial statistics.

Reports and Railroad Maps Distributed, Blanks, Certificates and
Circulars Forwarded and Certificates Issued and Recorded.

1,640 reports on lands and assessments.

2,100 reports on industrial statistics.

1,980 reports on railways, canals, telegraphs and telephones.

1,174 blanks relative to land office business.

5,998 blanks relative to industrial statistics.

2,960 blanks relative to railroads, taxes and assessments.

181 mine foreman's certificates issued.

181 mine foreman's certificates recorded.

3,325 railroad maps of Pennsylvania distributed.

Land Office.

2,161 copies of original papers certified and issued under the seal
of the department.

12,686 searches for applications, warrants and surveys required for
copies, patenting and connections and refiling the same.

2,987 entries in fee, account and cash books, and transcribing the
same quarterly for settlement with the Auditor General.

4 quarterly returns to the Auditor General.

56 applications for warrants received and entered on register.

139 applications for patents received and entered on register.

56 applications for warrants endorsed and filed.

139 applications for patents endorsed and filed.

138 tickets issued for patents.

19 new warrants issued, registered, numbered and filed.

19 warrants issued and directed to county surveyor for execution.

40 new surveys from county surveyors calculated and compared
with warrants.

10,920 searches made and recorded for new index.

40 new surveys entered on surveyor's list of returns, numbered and
filed.

Searches for completing titles in 27 counties.

11 new surveys containing an excess of land calculated, compared
with warrants and placed in excess files.

10,920 entries in new register, covering names of warrantees, dates of returns, names of patentees, number of acres returned, where recorded, etc.

8,049 entries in new index, covering warrantee and patentee names, acreage, date of warrant and books and page of record.

29 new surveys calculated, compared with warrants and returned to the county surveyor for correction.

138 entries on warrants, or applications, of the time of patenting.

138 entries on warrant registers of the time of patenting.

320 calculations of sums due.

170 certificates of sums due State Treasurer.

170 State Treasurer's receipts entered and delivered to the Auditor General.

170 vouchers numbered and filed.

19 warrants issued to survey 1,632 acres of land.

138 patents written, recorded and endorsed, embracing 47,321 acres of land and 18 lots.

130 satisfactions of liens on land lien docket.

130 certificates of liquidation made out and forwarded to the prothonotaries of the several counties, under act of 4th day of April, 1868.

21 caveats entered, recorded on caveat book and filed.

20 citations issued and noted on caveat book.

12 monthly statements delivered to the Auditor General.

181 mine foreman's certificates issued and recorded.

3,804 old surveys copied for binding.

285 copies of large surveys of tracts of land in the 17 certified townships of Luzerne, together with the certificates and assignments of the same, covering 624 pages of manuscript.

67 assessment reports of the counties of the Commonwealth copied, compiled and consolidated, showing the number of taxables, number of acres of cleared land, number of acres of timber land, value of real estate taxable, value of real estate exempt from taxation and value of all real estate, number and value of horses, mares, geldings and mules over the age of four years; number and value of neat cattle over the age of four years; value of salaries and emoluments of office, posts of profit, professions, trades and occupations; aggregate amount of county tax assessed; amount of money at interest, including mortgages, judgments, bonds, notes, stocks, etc.; value of stages, omnibusses, hacks, cabs, etc.; aggregate value of all property taxable for State purposes at the rate of four mills on the dollar, including money at interest, stages, omnibusses, hacks, cabs, etc.; aggregate amount of State tax assessed and the amount of debt of each county, with a comparative statement of each item from the report from the year 1895.

67 tax reports of the counties of the Commonwealth, copied, com-

piled and consolidated, showing the entire amount of tax collected or worked out for the maintenance of State, county, city, ward, borough and township governments; the total amount collected for support of the poor; total amount collected for the construction and repair of streets, roads and bridges; amount collected for school purposes; amount collected on personal property, on occupations and licenses; amount collected on real estate of railroad corporations, amount collected on real estate of corporations other than railroads, including limited partnerships, in the several assessment districts of the Commonwealth, between the 1st day of June, 1895, and the 31st day of May, 1897, made pursuant to the act of Assembly, approved the 9th day of May, A. D. 1889.

922 railroad, street railway, canal, telegraph and telephone companies registered.

431 reports of railroad companies tabulated, showing capital stock and dividends, debt and interest, cost of road and equipment, mileage, equipment and number of persons employed; miles run by trains and their speed; number of passengers carried and the cost per mile; kind of freight carried in tons and cost per ton; earnings and income; expenses during the year and accidents, together with comparative statements showing figures for the past five years.

425 street railway reports tabulated, showing stock and debt, cost and characteristics of road, passengers and expenses, receipts and accidents.

8 canal company reports tabulated, showing stock and debt, cost and characteristics of canal, tonnage, expenses and receipts, with a comparative statement for five years.

58 telegraph and telephone company reports tabulated, showing stock; debt, cost and characteristics of line, expenses and receipts.

248 checks issued for payment to State Treasurer, and disbursements on account of appropriations under act of Assembly.

4 meetings of the Board of Property held during the year, the proceedings of which covered nineteen pages of the minute book.

922 railroad reports copied for printing.

67 tax reports copied for printing.

67 assessment reports copied for printing.

4,643 copied surveys indexed in warrant register.

4,643 old surveys endorsed and filed.

4,643 surveys compared before binding.

218 surveys copied for land lien collectors.

LAND OFFICE BUREAU.

Board of Property.

In addition to the usual work that devolves upon the Board of Property in the way of hearing applications for warrants or patents in cases where caveats have been filed against their issuance, a great deal of work has been necessitated by the act of April 15, 1897. Under the provisions of this act the Secretary of Internal Affairs is given authority to grant warrants for portions of the beds of navigable rivers for such as have been declared public highways by act of Legislature, where such portions of the beds of the rivers have been for three years preceding the time of making application for the same not susceptible of use for navigation purposes. As a result of this act a number of applications were filed from Allegheny county and also from Luzerne, against which caveats were filed in nearly every instance against the granting of the warrant, the caveators setting up the claim usually that the land applied for was within the limits of tracts for which warrants had been previously granted. Abutting land owners along such rivers claiming title to the real estate to low water mark and having secured patents or other office rights guaranteeing title to them to low water mark, claimed that their rights were secured by virtue of these grants. During the year several of these cases were heard by the board, but up to the close of the fiscal year covered by this report none had been determined. The act referred to is as follows:

AN ACT

In relation to patenting lands lying within or along navigable rivers.

Section 1. Be it enacted, &c., That unpatented lands lying within any part or portion of any navigable river, and which part or portion of such river, by reason of any obstruction or otherwise, shall be incapable of use for purposes of navigation, and all unpatented strips or pieces of land lying between the navigable part or portion of any river and other unpatented land or lands which may be patented, and which shall have heretofore fronted or abutted upon such river, shall be subject to warrant, survey and patent by the Commonwealth at the same rate per acre, and except as herein provided in like manner as other public lands: Provided, That such lands or strips or pieces thereof hereby made subject to warrant, survey and patent, shall not have been, for three years or

more next prior to the application for the warrant for the survey thereof, within any part or portion of the bed of the river within or along which the same shall be situated, which shall have been used or which shall have been susceptible to use for the ordinary purposes of navigation: And provided further, That such lands or pieces or strips thereof shall not at the time of such application be within the navigable limits of such river, as the same shall be fixed or established in pursuance of any act of the General Assembly of this Commonwealth, or by or under the authority of the United States: And provided further, That every patentee of such lands or pieces thereof, and all persons claiming under any patent or patents which shall be issued therefor, shall take and hold the same under and subject to all riparian rights pertaining thereto heretofore granted by virtue of any law of this Commonwealth: And provided further, That no patentee of any such lands or strips or pieces thereof, nor any person or persons holding under any such patentee, shall have the right to do any act or thing thereon which shall interfere with or change the natural course or flow of such river, and that no person or persons shall permit any use to be made thereof or any improvements to be made thereon, which shall in any manner endanger or interfere with the free navigation of such river, or with any improvements made thereon, either by the United States or by or under the authority of this Commonwealth.

Section 2. Every applicant for a warrant to survey any such lands or pieces or strips thereof, shall file in the office of the Secretary of Internal Affairs a particular description of the land applied for, together with the affidavits of two disinterested freeholders, to be made before some justice of the peace or alderman of the township, borough or city within which the same or the greater part thereof shall be situated, specifying whether such lands or strips or pieces thereof be improved or not, and if improved when the improvement thereon was made. And the applicant for such warrant shall also file in said office an affidavit, to be made by him in like manner, that he verily believes that no warrant or other office right has previously been issued therefor, or if one has been issued that the same has been abandoned, and stating fully the facts in relation thereto; and if at any time thereafter it shall appear that the person or persons having made such affidavit, or any of them, shall have sworn or affirmed falsely, such person or persons shall be deemed guilty of perjury, and liable to all the pains and penalties incident thereto: And it is further provided, That if upon any tract or piece of land for which an application be made for a warrant for the survey thereof, no settlement has been made, and the land in whole or in part cleared and fenced, or otherwise improved by the settler, any person or persons owning land so situated that the lands for which such application shall be made adjoin

and lie between the land of such owner or owners and the navigable portion of any river, shall have the first right to purchase the land so applied for and receive a patent therefor; such owner or owners shall receive written notice that letters patent have been applied for immediately upon the application therefor, if such owner or owners shall file notice of his or their intention to purchase such land and accept letters patent therefor with the Secretary of Internal Affairs within sixty days from the date of the publication of the notice of application for a warrant for such land, and pay into the office of the Secretary of Internal Affairs the amount of the purchase money and fees and costs of the proceeding, whereupon, if any person or persons, other than such owner or owners, shall have made the application for such lands, such person or persons so applying shall have paid back to him or them all fees and costs paid by him or them in such proceeding, as well as the amount of the purchase money heretofore deposited. But if such owner or owners fail to exercise their first right to purchase the lands so applied for within the time and in the manner before provided, in such event a patent for such lands shall be issued to the person or persons having applied for the warrant thereon, as in other cases.

Approved—The 15th day of July, A. D. 1897.

DANIEL H. HASTINGS.

It is proper to state that this act was introduced into the Legislature without any notification to this department, and it became a law by the signature of the Governor without any consultation with this department or reference to the matter for consideration here. A careful reading of the act will convince any one of the vagueness and almost meaninglessness of its phraseology. It was probably intended as a general act for a local purpose, for scarcely had it been approved before applications were received from Allegheny county for warrants to survey lands which at one time had been the bed of a river, but had ceased to be such on account of the erection of a dam that had thrown the current of the river on one side of an island adjacent to the land applied for. The inducement which probably led to the passage of this act was the securing of title to that portion of the river that had thus been abandoned for navigation purposes; but the general features of the act gave encouragement to other parties to make application for strips of land in the Susquehanna river in the county of Luzerne. If the granting of the title of the Commonwealth to that portion of the Allegheny and Ohio rivers in Allegheny county is desirable, it could have been done by a special act. Such special legislation is not prohibited by the Constitution, and probably much litigation and contention could have been averted and perhaps the unsettling of titles in different parts of the Commonwealth. The act is bad in its phraseology, and its policy is seriously

questioned. Should the Board of Property determine that this act applies only to Allegheny county, as it seems was the intention, there may be no particular harm done, but if it is to be considered as applying to all portions of the State where it may be claimed that little vacant strips of land exist between abutting land owners along the rivers and low water mark, it will certainly be found prolific of litigation and serious contention.

The decisions made by the Board of Property during the year were largely on questions of interference and location and involved no new questions of law not passed upon or established by the decisions of the Supreme Court.

APPEALS FROM THE DECISIONS OF THE BOARD OF PROPERTY.

Under the act of 1792, which refers to contests over the right to secure patents from the Commonwealth for land, the defeated party before the Board of Property was given the right to commence an action at law in the courts of the Commonwealth, with a view to having his rights further passed upon by the judicial branch of the State government. The act of 1874, providing for the granting of warrants on application, as well as all previous laws relating thereto, made no provision for appeal from the decision of the Board of Property on contests brought to issue before the Board regarding the granting of warrants, and however valid an applicant may have considered his claim for a warrant, the decision of the Board has always been held as final. The legal profession in their practice before the Board have almost unanimously advocated the passage of a law that would give the defeated party on an application for a warrant the same right to have his claims passed upon by the judicial branch of the State government as that provided by the act of 1792 with reference to the granting of patents. In the report of 1896, this question was discussed and a copy of a proposed bill was included in the report. Had this bill become a law it would have given the defeated applicant for a warrant the same rights now enjoyed by the defeated applicant for a patent. This bill was introduced into the Legislature and passed both branches without opposition. It failed, however, to receive the approval of the Governor, and consequently did not become a law. Reference to this action on the part of the Executive and the Legislature seems necessary in view of the fact that in the report of 1896, publication was made of the proposed bill and its affect, in case it became a law.

COPYING RECORDS.

The necessary work of copying old records has progressed very satisfactorily during the year. 4,643 old surveys were copied and

bound in books, the most permanent method for preserving them, while the original surveys were placed in envelopes and filed away separately, to remain undisturbed unless the correctness of the copy should be questioned either in court or in the administration of the affairs of the department.

Of this number, 3,804 were of the usual size returned by the Deputy Surveyors, 285 were of the large surveys returned by the Surveyor of the Seventeen Certified Townships of Luzerne, and 554 were of the larger class of surveys, in many instances embracing several tracts. The number of patents granted during the year was 138, covering 47,321 acres of land and 18 lots in different towns and cities of the Commonwealth. The large number issued during the year was due, of course, to the passage of the act providing a new method for the collection of the purchase money, interest and fees due the Commonwealth on unpatented lands which is hereinafter referred to. The details of the work of copying applications, warrants, surveys, patents, etc., are fully set forth in the preliminary statement showing the amount of work done in the Land Office Bureau.

LIENS OF THE COMMONWEALTH AGAINST UNPATENTED LANDS.

For many years before the Land Lien Dockets of the Department of Internal Affairs were prepared under the enactments of 1864 and 1868, the attention of the officials, charged with the duties pertaining to the land office, was directed to the large number of unsettled claims that appeared upon the books of the office against unpatented lands for which office rights had been granted under the various systems for disposing of vacant lands that prevailed, at different periods of time, under the governments both of the Proprietaries and the Commonwealth. In many instances these unsettled and unpaid balances were found to be comparatively small; in many others they amounted to considerable sums of money, while there are many cases in which lands have been held by warrant and survey under the Proprietaries, from 1733 to the present time, for which no credits can be found on the books. In these cases the amounts now due, including purchase money, interest and fees, appear to be large, considering the prices at which the lands were sold at the time of purchase. Two other classes of liens arise: First, from the application system of the Proprietaries in force during the years 1765-66-67-68 and 69; and, second, from the "actual settlement and improvement" provision of that part of the act of 1792 relating to the unappropriated lands, in the purchase of 1784, lying north and west of the Ohio and Allegheny rivers and Conewango Creek. By the application system warrants were not granted, and to secure a right under it, the applicant was simply required to enter an application descriptive of the land he

wished to purchase, and of its location. The application was not to exceed 300 acres, and when received was numbered and entered in a book kept for that purpose, whereupon the Surveyor General was required, "with all possible despatch," to send a transcript of the same to the Deputy Surveyor of the county in which the land was located, who in turn, was required to make and return a survey within six months after the date of the application. The order instituting this system of granting lands provided that the purchase money in full, at the rate of five pounds sterling for 100 acres, should be paid within six months after the return of the survey; but the limitation for payment thus fixed in the order was subsequently extended a number of times, and was never enforced against any one. It may, however, be said that, although purchasers were thus permitted to pay when they pleased, many thousands of acres of lands, the original office rights to which were acquired under this system, were paid for in full, and titles for them completed by the granting of patents to the owners. While this is true, it is also a fact that there yet remain on the books a considerable number of tracts of this description for which settlements have never been made, for which no money has ever been paid, and against which liens have been entered. What is here said in reference to the application system applies in many respects to rights acquired by actual settlement and improvement under the act of 1792. To obtain a preemption right under that act it was only necessary for the settler to request the Deputy Surveyor of the district in which he lived to survey and mark out the lines of his settlement—not to exceed 400 acres—and make return of the survey to the land office. Pre-payment of the purchase money was not required, though many persons holding preemption rights by actual settlements promptly paid for their lands and received their patents. Payments have continued to be made on such tracts; but many still remain unpaid, and against them liens have also been entered as required by the law. Another class of liens found on the dockets against unpatented lands comes from the difference between the quantity of land for which the warrant was granted, and for which the Commonwealth received pay, and the excess quantity returned in the survey, which remains unpaid. By the act of April 1, 1784, for the opening of the land office under the Commonwealth, warrants for lands at that time purchased from the Indians were limited in quantity to 400 acres each, while within that part of the purchase of 1784 lying east of the Allegheny river and Conewango Creek the limit fixed by the act of December 21, 1784, was 1,000 acres each. In each case payment was made by the applicant for the number of acres specified in the warrant, but Deputy Surveyors were then permitted, under instructions from the land office, to return an excess of land over the quantity called for in the warrant, not to exceed ten per cent., so

that a survey returned on a 400 acre warrant might contain 440 acres, and, in like manner, on a 1,000 acre warrant, 1,100 acres might be returned. The unpaid balances due on these excess surveys are generally small in amount, yet in a tract containing an excess of 30, 40 or 100 acres, with added interest, while not reaching a large sum even now, amounts to as much as the original cost of the 400 acres or the 1,000 acres for which the applicant paid at the time the warrant was granted. In this connection it may be said that these unpaid balances nearly all arise from the sales of lands made by the Commonwealth during the years 1791 to and including 1794—years noted in the history of Pennsylvania for the magnitude of its land sales—and they now constitute the largest number of liens entered in the dockets.

The Commonwealth, in its dealings with the purchase of its lands, and with actual settlers upon its lands, has always pursued an exceedingly liberal policy, both in the low price at which lands were sold, and in providing by legislation easy terms by which title to lands could be completed by persons unable to pay in full for their purchases. As early as the fourth of April, 1805, an act was passed by the Legislature, entitled "An act to encourage the patenting of lands, and for other purposes," in which it was provided in the first section that the Receiver General, an officer then connected with the land office, was authorized to settle the accounts of all persons indebted for lands who should apply within three years, and, on paying the usual office fees, and executing a mortgage to the Governor to secure the payment of the aggregate of the arrearage of purchase money and interest found to be due in ten equal annual instalments, such persons should receive patents for their lands. Following this act, on the first day of March, 1811, an act of a similar character was passed to authorize the Secretary of the Land Office to grant patents to actual settlers upon lands, who had complied with the requirements of the acts of 1792 and 1794, and who should apply within two years and execute a like mortgage to secure the payment of purchase money and interest—the payments also to be made in ten annual instalments. The first of these acts, or acts of similar character, continued in force until the year 1830, and the second, by re-enactments, until the year 1836; while in a manner that differed somewhat from the requirements of these acts, the Connecticut claimants of lands in the seventeen certified townships of Luzerne county were permitted to obtain patents under an act passed the fourth day of April, 1805. Under this act a claimant, who desired his land to remain as a security for the payment of such amount as might be due the Commonwealth, could receive a patent without incurring the expense of executing a mortgage, by expressing his desire in writing to the Secretary of the Land Office, who was authorized to grant the patent.

The amount of purchase money was to be certified in the patent and remain a lien, "in the nature of a mortgage," on the land described therein until paid. The liens so held by the Commonwealth were, of course, to be entered of record, and the records show a number of such liens which remain yet unpaid.

In 1820 an act, somewhat stringent in character, was passed for the purpose of enforcing the collection of arrearages due on lands held by locations and other office rights granted by the Proprietary government; but, so far as the records of the office show, little was ever accomplished under its provisions. Again, in 1835, an act was passed to graduate the value of lands on which money was due, with a view, more especially, to regulate the interest charges. Up to that time in making settlement a uniform rate of six per cent. was charged on all arrearages without regard to the value of the land, or the price at which it had been purchased. The act of 1835 provided that the county commissioners of each county should be a board of appraisers, whose duty it was made to appraise at a cash value, exclusive of buildings, all lands on which purchase money was due the Commonwealth, if desired to do so by the owner or owners thereof. The valuations were to be limited to four rates, numbered one, two, three and four—the first rate to consist of land valued at ten dollars an acre and upwards; the second rate, of land valued at more than seven and less than ten dollars an acre; the third rate, of land valued at more than four and not more than seven dollars an acre, and the fourth rate, of land valued at four dollars or less an acre. With the original purchase money, the interest charge on land rated number one was to be at the rate of six per centum; number two, four and one-half per centum; number three, three per centum, and number four, the original purchase money without interest. The intent of this act was to facilitate and encourage settlements, but in that respect it seems, in a great measure, to have been a failure, although it was continued in force until 1864, when it was permitted to expire by limitation. The records prove that its provisions were very loosely complied with, and that considerable loss resulted to the State from the careless and indifferent manner in which its requirements were observed. The Surveyor General in his annual report of 1863, says of the act, "my predecessors for the last twenty years have, in their annual reports, recorded their conviction that the graduating act of 1835 has not produced the results its framers expected from it." The rates of interest were found to act unjustly in not making any distinction in the prices at which the lands were originally bought, thus giving a purchaser who was to pay the lowest price at which lands were ever sold, the same benefit as others who might have agreed to pay as much as eighty cents an acre. To remedy the inequality of interest charges growing out of the provisions of this unwise law,

an act was passed in 1858, regulating the charges of interest on money due the Commonwealth for lands, as follows: "On all lands where the original purchase money is twenty pounds (fifty-three dollars and thirty-three and one-third cents) per hundred acres, one per cent. per annum; on lands issued at the rate of fifteen pounds ten shillings, (forty-one dollars and thirty-three and one-third cents), two per cent. per annum; on lands issued at the rate of ten pounds (twenty-six dollars and sixty-six and two-thirds cents), and nine pounds (twenty-four dollars), three per cent. per annum; on lands issued at the rate of five pounds sterling (twenty-two dollars and twenty-two and one-fourth cents), and that issued at the rate of twenty dollars, three and one-half per cent. per annum; on land issued at the rate of five pounds (thirteen dollars and thirty-three and one-third cents), four per cent. per annum; on lands issued at the rate of fifty shillings (six dollars and sixty-six and two-third cents), six per cent. per annum; no interest to be charged on lands issued at eighty cents per acre." This act also provided that Connecticut claimants within the seventeen certified townships of Luzerne, now in the counties of Luzerne, Lackawanna, Wyoming and Bradford, classed by the commissioners as numbers one, two and three, should pay two per cent. per annum; land classed as number four, six per cent. per annum; that the in-lots, out-lots and reserve tracts of the towns of Beaver, Erie, Waterford, Franklin and Warren should pay two per cent. per annum from the date of sale, and that no interest whatever should be charged for the time which elapsed between the second day of December, 1776 and the second day of December, 1783. The results produced by this act did not in any perceptible degree improve the conditions that existed previous to its enactment, though the rates of interest to be charged under its provisions have never been changed, and have ever since been observed by the land office in making settlements for all monies due on unpaid land accounts.

The attention of the Legislature, time and again, had been called to the fact that a very large amount of money was due from the owners of unpatented lands, and that justice to the Commonwealth, as well as the interest of land owners, imperatively demanded that a law more effective in its provisions to promote, or, if need be, to compel settlements, should be devised than any of the previous enactments placed on the statute books for that purpose. Governor Curtin, in his annual message of 1863, referred to these unsettled land claims in earnest and emphatic language, and recommended to the Legislature the adoption of energetic measures for their collection. He said: "Very large sums are due the Commonwealth for unpatented lands. Forbearance, clemency and liberality have been in vain tried in numerous attempts to procure the payment of at least a part of this debt, from the larger portion of those who are in-

debted on that account. The continuance of this state of affairs is unjust to the Commonwealth, and to the vast majority of her people who have honestly paid for their lands. It has become unendurable. I recommend that the Legislature provide that the Surveyor General shall file of record, in the court of common pleas of each county, a description of the lands subject to the lien of the Commonwealth for purchase money, and a statement of the amount of principal and interest now due the Commonwealth, together with the patent fees on each tract, and ten per cent. on the amount so due for the labor and cost of making and filing each statement; and the aggregate amount thus stated, for each tract, shall be held to be the amount now due thereon to the Commonwealth, which shall bear interest at the rate of twelve per centum per annum, till paid, and shall continue to be a first lien on the land, till paid, and shall not be diverted by any judicial or other sale whatever. I also recommend the adoption of a suggestion contained in the Surveyor General's report, that a specific tax be laid on all unpatented lands." As a result of the representations of the Surveyor General and the recommendations of the Governor, the Legislature, in 1864, passed the act entitled "An act directing the entry of liens for the principal and interest due the Commonwealth for lands held by virtue of locations and other office titles." This act became a law on the 20th of May, 1864. It provided that the Surveyor General should prepare a list of all unpatented lands, designating the counties in which such were located, and containing such other descriptions as the records of the office would enable him to give. The lists, when completed, were then to be transmitted to the prothonotary of each county in which such unpatented land were found to be located, to be by that officer entered in a docket to be provided for that purpose. It was made the duty of the Surveyor General to calculate the amount of purchase money, interest and fees on each unpatented tract, which amount with an additional fee of five dollars, was to constitute an aggregate sum, which, after being entered on the lien docket, was to bear interest at the rate of six percentum per annum. The act contained a number of other provisions, which for the purpose of this statement, need not here be repeated. It is a fact deserving of attention, however, that the immediate effect of the recommendation of the Governor, and the legislature that followed, was to cause a very large increase in the business and receipts of the Surveyor General's office for the year ending November 30, 1864, as compared with previous years. The receipts of the office for purchase money, interest and fees, exclusive of copying fees, during the seven years immediately preceding 1864, were \$90,371.14, or a yearly average of \$12,902.45. The largest amount received in any one of these years was in 1857 (\$21,553.59), and the smallest in the year 1862 (\$5,230.61). For the year 1864, the receipts were \$90,087.95,

nearly as much as for the seven previous years combined. During the same year 2,178 patents were paid for as against 1,600 for the previous years mentioned. Referring to the increase of business and receipts thus shown, the Surveyor General, in his report to the Governor, for 1864, says: "There can be no doubt that the recommendations made in your Excellency's last annual message, and the action of the Legislature thereon, were the main causes of the increase," and he continues: "I am of opinion that the receipts might be still further augmented by the application of a gentle pressure in the shape of a light increase of taxation on unpatented lands to parties in arrears." The preparation of the liens provided for in the act of 1864 involved time and a great amount of labor in making the necessary examinations of the thousands upon thousands of accounts contained in the land office books. It was also necessary to observe great care in making the calculations of interest in order to insure accuracy, a work that likewise involved time and labor. The work of preparing the accounts was begun soon after the act became a law, and was prosecuted as rapidly as possible until the end of the year 1867, at which time they were nearly completed, and the lists about ready for transmission to the prothonotaries of the counties. In the meantime, it was thought by the officials that the act of 1864 was defective in only providing that the liens to be entered should embrace unpatented lands held under office rights, whereas considerable amounts were known to be due on patented lands for which, under laws heretofore mentioned, mortgages had been executed and special liens entered that remained unsatisfied. It was recommended, at the same time, that instead of the descriptive lists contemplated by the act of 1864 to be entered in books by the prothonotaries, it would be better, for the purpose of securing greater uniformity in the records, to prepare "Lien Dockets" in the land office for distribution to the counties. The changes in the law thus recommended were made by the supplementary act of April 4, 1868, amending the act of 1864, the first section of which enacts "that in lieu of the descriptive lists provided for in said act (act of 1864) it shall be the duty of the Surveyor General to make out and forward to the prothonotaries of the several counties, lien dockets, to be styled 'Land Lien Dockets,' containing lists of all unpatented lands, situate in the counties respectively, upon which there is money due the Commonwealth, and in all cases where surveys have been returned, to enter therein the amount of purchase money, interest and fees due, and said aggregate shall remain a lien on such tract until paid or otherwise legally discharged." The second section repealed the fifth section of the act of 1864, which provided for the publication of the lists, and all parts of the act inconsistent with the new enactment. There has recently been, in some parts of the State considerable discussion—discussion, too, not entirely free

from misrepresentation—in relation to the land liens of Pennsylvania, in which reference has often been made to the supplementary act of 1868, and inasmuch as that act, as already shown, was passed at the instance of the land officers, it may not be improper to show that there was entire unanimity of opinion in the Legislature in accepting the views and recommendations of those officials, and that the act was passed under suspension of the rules, without a dissenting vote in either house. In the Journal of the Senate, March 20, 1868, on page 687, it will be seen that “Mr. White read in his place and presented to the Chair a bill, entitled ‘A supplement to an act directing the entry of liens for the principal and interest due the Commonwealth for lands held by virtue of location or other office titles, approved the 20th day of May, A. D. 1864.’” On the same day, page 698, the Journal reads:

“On motion of Mr. White and Mr. Shoemaker, the Committee on Judiciary (General) was discharged from the further consideration of bill, entitled ‘A supplement to an act directing the entry of liens for the principal and interest due the Commonwealth for lands held by locations or other titles, approved the 20th day of May, A. D. 1864.’ And the rules having been dispensed with, said bill (Senate file, No. 1,254) was read a second and third time and passed.” It was immediately ordered that the bill be sent to the House of Representatives for concurrence. The bill appeared in the House on the 23d of March, and was passed by that body, under a like suspension of the rules, on the 2d day of April (see House Journal, pages 815 and 1,000), and with the approval of the Governor, became a law two days later. At no stage of the proceedings in either House was there a call of the yeas and nays on the bill.

It was fortunate that the examinations and calculations for the descriptive lists were so nearly completed when the supplementary act of 1868, providing for the dockets in lieu of descriptive lists, was passed. A docket of proper size, with uniform paging and ruling for each county was immediately procured and the work of transcribing the lists begun. In addition to the county dockets, the lists were transcribed into four large volumes to remain in the office, in which the entries are made by counties, with the list of each county alphabetically arranged. It was a little more than one year before any of the county dockets were ready to be transmitted to the prothonotaries, but all were completed and sent out during the year 1869—the first on the 6th of May and the last on the 27th of November—and that the public might be duly informed of such transmission, the Surveyor General was directed, by an act passed the 8th day of April, 1869, to give notice of the same in one English newspaper published at the county seat, and in one German newspaper if one was published in the county. By the act of 1864, the Attorney General was author-

ized at any time after the first of November of that year to proceed against the liens entered in the lists that remained unpaid at that date, but as the lists were not then completed this provision of the act remained a dead letter, and by a subsequent act, passed in 1871, the Board of Property, consisting of the Attorney General, the Secretary of the Commonwealth and the Secretary of Internal Affairs, was given full discretionary powers to fix the time of entering suits to enforce collections. There had never been the slightest disposition shown by the officials of the land office to deal harshly or oppressively with citizens occupying lands for which arrears of purchase money were due, and after the financial disturbances of 1873 came upon the country, it was deemed inadvisable by the Board, in view of the prevailing stringency of the times, to cause suits to be entered as provided for in the act, lest distress or hardship might come to some persons, ill able to bear such pressure, whose possessions happened to be encumbered with Commonwealth liens. In relation to this determination of the Board, the Secretary of Internal Affairs, in his annual report for 1875, says: "The Board of Property, in view of the situation, have deferred, for the present, the exercise of their power to cause suits to be brought against the delinquents, in the hope that the owners of these lands may, at an early day, discharge the liens against them, and thus avoid the additional and heavy costs that would become a necessary incident in enforcing the law for the recovery of the just dues of the Commonwealth." No change has since been made in the policy of leniency that then, under unusual conditions, influenced the action of the Board, and unpaid liens remain on the dockets to-day just as they were written in 1869, saving of course those which have since been paid.

As an outcome of the recommendations of the surveyor General and the Governor and the enactment of the law of 1864, it has been seen how largely the business and receipts of the land office were increased by settlements made for unpatented lands. It may be well, therefore, to show the results that followed in succeeding years under that act and the subsequent acts. The receipts of the office for the year 1864, exclusive of copying fees, as before stated, were \$90,317.14, almost as large an amount as has been received by the office during the previous seven years. This was a very gratifying result to follow so soon after the act of 1864 became a law, and before any lists had been prepared, and it encouraged the belief that in no great number of years the entire indebtedness due the Commonwealth on unpatented lands could, at that rate of settlement, be paid. Unfortunately, however, it must be said that the encouraging exhibit of 1864 was not to be equalled by the results of the year immediately following and including the year 1869, when the land lien dockets were sent out. In fact there was a pronounced falling off in the amounts received,

though the aggregate for the five years, 1865, 1866, 1867, 1868 and 1869 was \$126,828.11, or a yearly average of more than \$25,000. The year 1870, following the transmission of the dockets to the counties again shows a very large increase in the receipts of the office, amounting for the year to the sum of \$139,845.39, a larger sum it will be observed, than the aggregate for the previous five years. The same decrease that followed the large increase of 1864, was experienced after 1870. For the year 1871, the records show the amount to have been \$48,212.11; for 1872, \$45,724.73; for 1873, \$53,035.48; for 1874, \$32,698.18. In the eleven years, beginning with 1864 and ending with 1874, the amount paid into the State Treasury as the receipts of office for purchase money and fees, exclusive of copying fees, was \$536,658.14, as computed from the yearly figures above given. At this time, 1874, a careful examination of the land lien dockets of the office, made under the supervision of the Surveyor General, showed that unpaid liens remained on the dockets against 13,531 tracts of land aggregating 2,365,430 acres, on which there was due the sum of \$758,380. With twenty-four years of accrued interest, at the rate of six per centum per annum, these arrearages would now, of course, amount to considerably more than double that sum; but it should here be said that in the land system of Pennsylvania it is not an uncommon circumstance to find the same land covered by two, and occasionally, as has been discovered, by even three, office rights, thus giving rise to conflicting and interfering surveys, or, as sometimes happened, causing the locating of a younger block of warrants upon land already surveyed on older warrants. It was never intended that there should be two payments for the same land, and the Legislature, foreseeing that difficulties from such conflicting surveys must necessarily arise in settling the lien dockets, wisely enacted a law in 1869 conferring upon the Surveyor General authority to grant releases in all cases where satisfactory evidence could be produced to show that payment in full had been made for both land and fees on one of the rights where two existed for the same land. Many such releases were entered and recorded between the years 1869 and 1874, and since then others, sufficiently large in number to somewhat reduce the amount apparently due by the examination of the dockets made in the latter year, have been allowed. There can be no doubt that like instances will appear in the future to be disposed of in the same way; but withal, after deducting payments that have been made since the year 1874, and making a liberal allowance for releases that may be hereafter entered under the act of 1869, the fact remains that unpaid liens on the dockets, consisting of balances due on mortgages, liens and unpatented tracts on which surveys have been returned, will, with added interest to the present time, amount to considerably more than \$1,000,000. This statement is exclusive of

the large number of tracts on the docket, held under office rights of various descriptions, on which surveys have never been returned, and on which no estimate of the amount of unpaid purchase money can be formed. Recent investigation has shown that among the older of these tracts are many that are covered by younger rights duly returned and paid for in full. There are many such tracts, originally held under proprietary rights, for which rights were subsequently taken out under the Commonwealth. In all such cases the docket should be cleared by entering releases as heretofore indicated; yet after all proper and legitimate deductions have been made, there will still remain a large number of the tracts without surveys on which purchase money, amounting in the aggregate to a very large sum, is honestly due.

The effect of the policy adopted in 1874—prompted as it undoubtedly was by humane considerations—is readily seen in the diminished receipts of the office from that time until the end of the year 1896, a period of twenty-two years. The amount paid into the Treasury for the purchase money and fees (exclusive of copying fees) during the five years previous to 1875, was \$319,512.89. During the twenty-two years following 1874, the aggregate amount is \$80,451.27, or an average of \$3,656 a year. The largest amount for any one of the twenty-two years was in 1875, for which year the receipts show \$14,386.13; the smallest amount for any one of these years was in 1879, when there were only \$1,619.71. In the five years previous to 1875, seven thousand and two patents were granted. In the following twenty-two years the number was one thousand three hundred and sixty-eight, less, it will be observed, than one-fifth the number issued in the preceding five years.

The foregoing observations are made with reference to the laws existing prior to 1897, under the administration of the office of the Surveyor General and subsequently that the Secretary of Internal Affairs, with reference to collections on the liens to unpatented lands. Hereinafter will be found a copy of the act of 1897, which only changes the manner of collecting amounts due the Commonwealth under prior existing laws.

The act of 1897 did not in any way change the character of the liens which had previously been entered, neither did it revive any because none had been outlawed. The Board of Property, under the act of 1864 and its several supplements hereinbefore referred to, had authority to take such action as it might deem proper with reference to enforcing collections. The Board, however, only meets some five or six times during the year, and when it is in session its duties are confined to questions of dispute arising from new applications for land, or between warrantees under rights previously granted, and the members of that Board have had

little time, on account of other duties imposed by the Commonwealth, to devote to the duties imposed upon them under the act of 1864, and its several supplements, as to the collection of the amounts due the Commonwealth on unpatented lands. The effect therefore of the act of 1897, as before indicated, was to transfer from the Board of Property the authorities with reference to the collection of these amounts to the Secretary of Internal Affairs. No other change, of any kind or nature, was made by the recent act of the Legislature, although a contrary impression seems to have gained some foothold throughout the Commonwealth where resistance was made to the enforcement of collections. It is proper to add here that in some of the counties of the Commonwealth, among which may be mentioned Elk, McKean, Potter, Tioga and Jefferson, where operations were commenced under the act of 1897, the dockets were largely cleared up, the lands against which liens were entered being owned largely by corporations and the officers of such corporations, being desirous of having the titles perfected, had no objection to paying the small amounts due the Commonwealth and securing the final link in the chain of title from the State.

There have been some complaints made about the enforcement of the collection of amounts due, but the matters most complained of relate to the excessive interest, which was provided by the act of 1864. The cause that led to the increase of the interest charge under the act of 1864 was due largely to the belief that if such provision was made, the owners of unpatented lands would at once avail themselves of the right or privilege of making settlement of the purchase money, interest and fees then due, in order to become relieved of the additional interest charges which would accrue should there be delay in making payments. It is probable that at the next session of the Legislature an effort will be made to modify existing laws to the extent, at least, of relieving the owners of these lands of the additional interest which has accrued under the act of 1864 and its several supplements.

Appended to this article on the "Liens of the Commonwealth against Unpatented Lands," will be found, first, a table showing the yearly receipts of the Land Office for purchase money and fees (exclusive of copying fees) beginning with the year 1864 and ending with the year 1897, also the number of patents and warrants issued during the same years; second, fac simile surveys returned on rights under the different systems of disposing of the public lands; third, copies of mortgage and bond given to secure the payment of purchase money, with patent granted in pursuance of the same; and fourth, all the laws of the State relating to land liens, beginning with the act of May 20, 1864.

STATEMENT

Showing the receipts of the Land Office for purchase money and fees (exclusive of copying fees); also the number of patents and warrants issued, beginning with the year 1864 and ending with the year 1897, a period of thirty-four years.

THIS INDENTURE, made the thirty-first day of August in the year of our LORD, one thousand eight hundred and nine BETWEEN John Patton, of the Township of in the county of and Commonwealth of Pennsylvania, of the one part, and his Excellency Simon Snyder, Esq., Governor of the Commonwealth of Pennsylvania aforesaid, of the other part, WITNESSETH, that the said John Patton, for and in consideration of the sum of Three hundred and thirty-three dollars and ninety cents lawful Money of the United States of America, being the aggregate of the Arrears of Purchase money and Interest found due to the Commonwealth aforesaid, on Settlement of a Tract of Land granted, by Patent bearing even date herewith, to the said John Patton, pursuant to the directions of an Act of the Legislature, passed the 4th day of April, 1805, entitled "An act to encourage the patenting of Lands, and for other Purposes; the receipt of which Patent, the said John Patton, doth hereby acknowledge; hath granted, bar-

gained and sold, and by these presents doth grant, bargain, and sell unto his Excellency, the said Simon Snyder, Esq., Governor of the Commonwealth aforesaid, and his successors in office, all that certain Tract of Land, situate, lying, and being in Allegheny township, Huntingdon County; BEGINNING at a hickory near a marked White Oak; thence by surveyed land, South three degrees and three-quarters West, three hundred and forty-six perches to a Dead White Oak; South eighty-six degrees and a quarter East fifty-two perches to a Post near Marked Trees; South thirty-three degrees and a quarter West, thirty-four perches to a Post, where a Spanish Oak stood; South eighty-six degrees and a quarter East one hundred and forty-two perches to a White Oak, where a Post stood; thence by land of Andrew McNeely, North three degrees and three-quarters East three hundred and eighty perches to a Dogwood, where a Post stood; and thence by Samuel Eddintons claim North eighty-six degrees and a quarter West one hundred and ninety-four perches to the BEGINNING: CONTAINING Four hundred twenty-four acres forty-one perches and the allowance of six p. cent., &ca. Which said Tract of Land was surveyed in pursuance of an Application No. 1581, dated the 18th October, 1766, entered by Robert Caldwell, whose right to the said tract of land by virtue of sundry good conveyances became vested in the said John Patton. TOGETHER with all and singular the buildings, improvements, rights, liberties, privileges, hereditaments and appurtenances whatsoever thereunto belonging, or in any wise appertaining; and the reversions, remainders, rents, issues, and profits thereof; TO HAVE AND TO HOLD the said described Tract or Parcel of Land, hereditaments and premises, with the appurtenances, unto his Excellency, the said Simon Snyder, Esq., Governor of the Commonwealth of Pennsylvania aforesaid, and his successors in office, forever, in Trust, for the use of the said Commonwealth. PROVIDED, ALWAYS, That if the said John Patton, his heirs, Executors, Administrators, or Assigns, shall well and truly pay unto the State Treasurer of the Commonwealth of Pennsylvania aforesaid, at the place where his Office shall be kept, the above mentioned Sum of Three hundred and thirty-three dollars and ninety cents, lawful money as aforesaid, with interest for the same, and every part thereof, yearly, in manner following:

Principal.	Quota.	Payments.	Interest.	
.....	1	\$20 34.	Fifty-three dollars and seventy-three cents part thereof, on the thirty-first day of August, One thousand eight hundred and Ten.
		2	18 28.	Fifty-one dollars and sixty-seven cents more thereof, on the thirty-first day of August, One thousand eight hundred and eleven.
		3	16 25.	Forty-nine dollars and sixty-four cents more thereof, on the thirty-first day of August, One thousand eight hundred and twelve.
		4	14 21.	Forty-seven dollars and sixty cents more thereof, on the thirty-first day of August, One thousand eight hundred and thirteen.
		5	12 18.	Forty-five dollars and fifty-seven cents more thereof, on the thirty-first day of August, One thousand eight hundred and fourteen.
		6	10 15.	Forty-three dollars and fifty-four cents more thereof, on the thirty-first day of August, One thousand eight hundred and fifteen.
		7	8 12.	Forty-one dollars and fifty-one cents more thereof, on the thirty-first day of August, One thousand eight hundred and sixteen.
		8	6 09.	Thirty-nine dollars and forty-eight cents more thereof, on the thirty-first day of August, One thousand eight hundred and seventeen.
		9	4 06.	Thirty-seven dollars and forty-five cents more thereof, on the thirty-first day of August, One thousand eight hundred and eighteen.
		10	2 03.	Thirty-five dollars and forty-two cents the residue thereof on the thirty-first day of August, One thousand eight hundred and nineteen.
333 90-100	\$33 39			

Without fraud or further delay; that then and from thenceforth this Indenture shall be void, and the Estate hereby granted shall cease and determine.

IN WITNESS Whereof, the said John Patton, hath hereunto set his Hand and Seal the day and year first above written.

JOHN PATTON (Seal).

Sealed and delivered in the presence of

RICHD SMITH,

JNO. MILLER.

Huntingdon County, SS: Be it remembered, that on the first day of May, 1810, before me the subscriber, one of the Justices of the Peace in and for said county, personally appeared the above-named John Patton, and acknowledged the above instrument of writing to be his free act and deed. IN WITNESS Whereof I have hereunto set my hand and Seal the day and year aforesaid.

JOHN MILLER (Seal).

To Walter Franklin, Esq., Attorney General of the Commonwealth of Pennsylvania, or any other Attorney, of any Court of Record, within the Commonwealth aforesaid, or elsewhere.

WHEREAS, John Patton, of the Township of Huntingdon, in the County of Huntingdon and Commonwealth of Pennsylvania, aforesaid, by an Indenture of Mortgage, by him duly executed, bearing even date herewith, has engaged to pay the sum of Three hundred and thirty-three dollars and ninety cents lawful money to the Treasurer of Pennsylvania, for the said Commonwealth, at the place where his Office shall be kept, with lawful interest for the same, yearly, in such manner and form as are particularly directed in and by the said Indenture of Mortgage.

NOW KNOW YE, that I, the said John Patton, do hereby authorize and desire you, or any of you, to appear for me the said John Patton, his Heirs, Executors, or Administrators, in any Court of Record within the Commonwealth of Pennsylvania aforesaid, or elsewhere, in any Term (after Default made, by non-payment of any part of the said mortgage money, upon such days and times, or in such manner, as is directed in the said Indenture of Mortgage) either in a plea of trespass and ejectment, there to be brought against me my Heirs and Assigns, by the Lessee of his Excellency, Simon Snyder, Esq., Governor of the Commonwealth of Pennsylvania aforesaid, or his Successors in Office, to gain the possession of the Lands, hereditaments, and premises which are granted, to him in Mortgage, by the said Indenture, or in any "SCIRE FACIES," or action of debt, to be brought upon the said Mortgage, at the suit of his Excellency, the said Simon Snyder, Esq., Governor as aforesaid, or his successor in Office, against me my Heirs, Executors, or administrators, as of the next Term after Default made as aforesaid, or any other subsequent term; and to receive declarations, as the Law in such cases directs; and thereupon to confess or suffer judgment to pass against me my Heirs, Executors, or Admin-

istrators, for so much of the Term of the said Lessee as shall then be to come, or for the debt aforesaid, with cost of suit, by "non sum informatus, nil dicit," or otherwise, and for your, or any of your, so doing, this shall be your sufficient Warrant.

And I do hereby remise, release, and forever quit claim, unto his Excellency, the said Simon Snyder, Esq., Governor of the Commonwealth aforesaid, or his Successor in Office, all and all manner of error and errors, misprisons, misentries, defects, and imperfections whatsoever, in the entering of the said Judgments, or any process, or proceedings thereon, or in any wise touching or concerning the same.

IN WITNESS Whereof, I, the said John Patton, have hereunto set my Hand and Seal this thirty-first day of August, in the year of our Lord, one thousand eight hundred and nine.

JOHN PATTON.

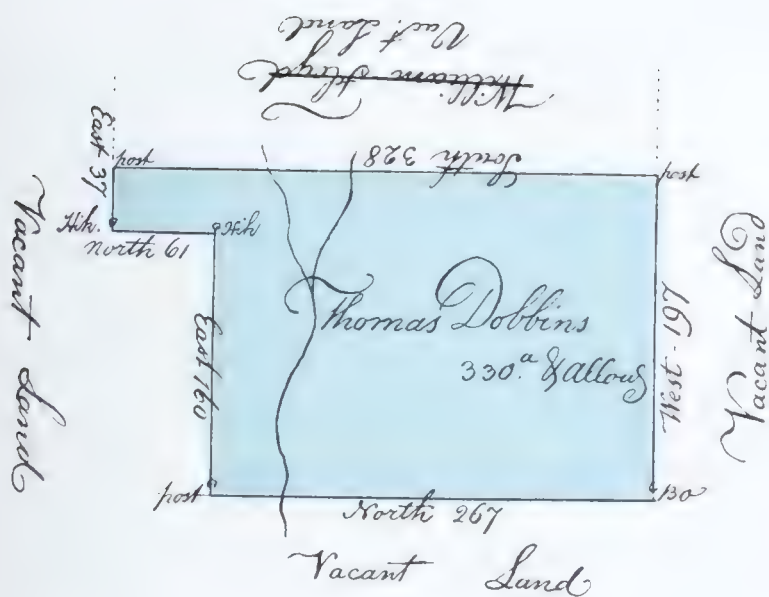

Sealed and delivered in the presence of
RICH'D SMITH,
JNO. MILLER.

THE COMMONWEALTH OF PENNSYLVANIA.

John Cochran, Sec'y Ld. Office.

To all to whom these Presents shall come, Greeting:

KNOW YE, That in consideration of the sum of Three hundred and thirty-three dollars and ninety cents secured to be paid by John Patton, of Huntingdon County into the Treasury Office of this Commonwealth, by an indenture of Mortgage bearing even date herewith there is granted, by the said Commonwealth, unto the said John Patton, a certain Tract of Land, called "ECHO," situate in Allegheny Township, Huntingdon County; BEGINNING at a Hickory; near a Marked White Oak; thence by surveyed land, South three degrees and three-quarters West, three hundred and forty-six perches to a Dead White Oak; South eighty-six degrees and a quarter East, fifty-two perches to a post, near Marked Trees; South thirty-three degrees and a quarter West, thirty-four perches to a Post, where a Spanish Oak stood; South eighty-six degrees and a quarter East, one hundred forty-two perches to a White Oak, where a Post stood; thence by land of Andrew McNeely, North three degrees and three-quarters East three hundred and eighty perches to a Dogwood, where a Post stood; and thence by Samuel Eddington's claim, North eighty-six degrees and a quarter West, one hundred and ninety-four perches to the BEGINNING: CONTAINING Four hundred twenty-four Acres, forty-one perches and allowance of six per cent. for roads, &c. Which said tract of land was surveyed in pursuance of an Application No. 1581, entered by Robert Caldwell, the 18th October, 1766, whose right to the same by virtue of sundry good conveyances became vested in the said John

A Draught of a tract of Land situate on the South side of the West Branch of Susquehanna in the County of Berks, called Sunderland Surveyed the 16.th day of October 1769. Patton, to whom a warrant for the acceptance of said survey issued the 31st August, 1809, with the appurtenances.

TO HAVE AND TO HOLD, The said Tract or Parcel of Land, with the appurtenances, unto the said John Patton, and his Heirs to the use of him the said John Patton, his Heirs and assigns forever, subject nevertheless to the conditions of said mortgage.

FREE AND CLEAR of all Restrictions and Reservations, as to Mines, Royalties, Quit-rents or otherwise, excepting and reserving only the fifth part of all Gold and Silver Ore, for the use of this Commonwealth, to be delivered at the Pit's mouth, clear of all charges.

IN WITNESS Whereof, John Cochran, Secretary of the Land office of the said Commonwealth, hath hereto set his Hand, and the Seal of the Land Office of Pennsylvania hath been hereunto affixed, the thirty first day of August, in the year of our Lord, one thousand eight hundred and nine, and of the Commonwealth the thirty-fourth.

Attest:

RICHD M. CRAIN,
Deputy Sec'y Ld. Office.

(Act of 20th May, 1864, P. L. 914.)

AN ACT

Directing the entry of liens for the principal and interest due the Commonwealth for lands held by virtue of locations or other office titles.

Section I. That it shall be the duty of the Surveyor General to make out a list of all lands held by location, or any other office right, issued from the Land Department of this Commonwealth, of every kind and description, upon which no patents have issued, designating the county in which such lands are situated, with such other descriptions of the same as the records of his office will enable him to give, including the names in which such locations or other office rights are entered, and surveys have been returned; and on the list being completed, or any part thereof, be transmitted to the prothonotary of the county in which such lands are situated.

Section II. That it shall be the duty of the Surveyor General to calculate the amount of purchase money, interest and fees, due on each unpatented tract; and after the descriptions of said tracts have been transmitted to the prothonotaries of the respective counties, and entered, as hereinafter provided, the amounts so found to be due, together with five dollars for the labor and costs of making out and filing, shall form an aggregate sum which shall be entered in a lien docket to be provided and kept for that purpose, and said sum shall bear interest at the rate of six per cent.

Section III. That it shall be the duty of the prothonotary of each

county, upon receiving any descriptive list as aforesaid, to provide a suitable docket, with a proper index, for the purpose of recording all such descriptions of unpatented lands, and shall accurately record the same and index the name of the original warrantee or actual original settler, as the case may be, and each subsequent owner so far as ascertained, and preserve the same among the records of the county: Provided, That when any party in interest, by petition under oath or affirmation, setting out the facts in the case, as in affidavit of defense, shall represent to the president judge of the court of common pleas of the county, in which any tract or piece of land, against which the entry directed in the foregoing section has been made, or the principal part thereof, may lie, that said tract has been patented, either in the name against which the entry is made, or in any other name, the said judge shall, after such notice to the Surveyor General as he shall deem proper, proceed to hear the case of the petitioner; and the said judge shall, thereupon, make such decree in the premises, either by directing the said entry to be struck from the record, or such other order as to said entry, and also as to costs, as may seem equitable.

Section IV. That it shall be the duty of the prothonotary of each county, upon receiving from the Surveyor General any such list or calculation of amounts due the Commonwealth for purchase money, interest and fees, to provide a suitable docket with index, in the form of the lien dockets now in use in the several counties of this Commonwealth, to be styled "Lien Docket of Unpatented Lands," and enter therein the amount so found to be due, which sum shall remain a lien upon such tract or tracts, until paid; and that a fee of fifty cents be paid to the prothonotary for each description so entered, and that he be allowed the same fees on the liens entered, as are now allowed on judgments entered by warrant of attorney in the court of common pleas.

Section V. That it shall be the duty of the prothonotary, upon receiving any such descriptive list, to cause the same to be published in two newspapers in the county where such lands are located, for three successive weeks, for which publication he shall be authorized to pay fifty cents for each tract, and charge the same as costs on the lien docket, and retain his fees and costs out of any moneys, in his hands, due the Commonwealth.

Section VI. The amounts which may be due to the Commonwealth on the lands mentioned in the first section of this act, may be paid in accordance with the existing laws in relation to such lands, if the same be paid prior to the first day of November next: Provided, That any costs, which may have accrued in accordance with the provisions of this act, shall also be paid, and that the act to graduate lands on which money is due and unpaid to the Commonwealth of Pennsylvania, ap-

proved April tenth, Anno Domini one thousand eight hundred and thirty-five, be revived and continued in force, until the said first day of November next; and any survey and appraisements, made since the first day of August last, shall have the same validity for the issuing of patents thereon, as if the last mentioned law had been still in full force.

Section VII. That all liens due the Commonwealth for unpatented lands, after the first day of November, Anno Domini one thousand eight hundred and sixty-four, may be proceeded upon by the Attorney General of the Commonwealth in the manner directed to be pursued against defaulting public officers, by the act of April sixteenth, one thousand eight hundred and forty-five, and the supplement thereto.

Section VIII. All persons in the military or naval service of the United States, shall be allowed one year after the expiration of said service, for the taking out of any patent or patents under the provisions of this act.

Section IX. That, hereafter, the patent fee, on town lots not exceeding one-fourth of an acre, shall be one dollar, and on lots not exceeding two acres, five dollars.

[Act of 4th April, 1868, P. L. 60.]

A SUPPLEMENT

To an act directing the entry of liens for the principal and interest due to the Commonwealth for lands held by virtue of location or other office titles, approved the twentieth day of May, Anno Domini eighteen hundred and sixty-four.

Section I. That in lieu of the descriptive lists provided for in said act, it shall be the duty of the Surveyor General to make out and forward to the prothonotaries of the several counties, lien dockets, to be styled "land lien dockets," containing lists of all unpatented and patented lands, situate in the counties respectively, upon which there is money due the Commonwealth, and in all cases where surveys have been returned, to enter therein the amount of purchase money, interest and all fees due, and said aggregate shall remain a lien on such tract until paid or otherwise legally discharged: Provided, That the several prothonotaries shall be allowed to charge the fees now authorized by law when any information shall be desired from said records, and for entering any certificate under the seal of the Surveyor General, setting forth that any lien or part of lien against an unpatented tract has been paid, shall charge the party presenting such certificate a fee of twenty-five cents for entering and filing the same.

Section II. That the fifth section of the act to which this is a supplement, and so much of said act as is inconsistent herewith, be and the same is hereby repealed.

[Act of 8th April, 1869, P. L. 21.]

AN ACT

Directing public notice to be given when county land lien docketts are forwarded to the respective counties, and staying proceedings by the Attorney General for one year from the date of forwarding the same.

Whereas, The Surveyor General, at an early day, will be prepared to send out the county land lien docketts, containing accounts due the Commonwealth on account of lands, prepared under the act approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four, and the supplement thereto, approved the fourth day of April, Anno Domini one thousand eight hundred and sixty-eight;

And whereas, It is proper that the people owing the State, for or on account of lands, should have notice when the liens therefor are entered in the counties, and that a reasonable time should be given to enable them to liquidate their indebtedness and obtain patents for their lands, before suits shall be brought in such cases by the Attorney General therefor.

Section I. That when any county land lien docket, prepared under the foregoing acts, shall be forwarded to any county, the Surveyor General is hereby authorized and directed to cause a notice thereof to be given in one English newspaper, published at the county seat of such county, and also in one German newspaper, if there be one in said county, setting forth that the land lien docket for that county has been forwarded to the prothonotary thereof: Provided, That no greater sum than ten dollars shall be paid for such notice or advertisement for any one county; and on evidence being submitted to the Auditor General that such advertisement has been authorized by the Surveyor General, and inserted at the usual rates of advertising, he shall draw his warrant on the treasury in favor of the editor or publisher inserting the same.

Section II. That no suit or suits shall be entered or instituted by the Attorney General, under the provisions of the seventh section of the act of the twentieth of May, Anno Domini one thousand eight hundred and sixty-four, until one year shall have elapsed from the date at which the Surveyor General shall have forwarded to each county, respectively, the land lien docket for the same.

[Act of 15th April, 1869, P. L. 31.]

A FURTHER SUPPLEMENT

To an act directing the entry of liens for the principal and interest due to the Commonwealth for lands held by virtue of locations or other office titles, approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four.

Whereas, An examination of warrants and returns of surveys show in many cases interferences in said returns, and in many instances

where patents have issued on some of said surveys, there are balances due upon other warrants covering the same land therefor.

Section 1. That whenever satisfactory evidence shall be given to the Surveyor General that a lien or liens have been entered against lands for which the Commonwealth has been fully paid, both for land and patent fees, he is hereby authorized, and it shall be his duty, to give to the party or parties applying for the same a release of said lien or liens, so far as said patented lands are concerned; which said release may be entered on the land lien docket, in accordance with the provisions of the supplement to the act of which this is a further supplement, approved the fourth day of April, Anno Domini one thousand eight hundred and sixty-eight.

[As many persons will apply for releases under the provisions of this law, it is deemed proper to state what will be regarded as satisfactory evidence by this department. Applicants, in order to avail themselves of the act, should cause a plot or survey of the patented tracts, and the unpatented interfering tracts (showing the manner in which, and to what extent they cover the same land), to be made by the county surveyor, who will certify that he has made the same at the request of A, B, and C—the owners of the patented tracts, or parts of tracts, or their agents or attorney—giving names of warrants and dates of warrants and patents, and names and dates of warrants of the unpatented lands, and that he believes the interference or interferences to be as delineated by him. On a paper appended to the above plot of surveys, the applicant or applicants, his or their agent or attorney will be required to make an affidavit that the interferences are liable to be as delineated by the county surveyor. A release will then be issued to the owner or owners of the patented tract or tracts, relieving them from any and all liability to pay the liens of the Commonwealth entered against such interfering unpatented tract or tracts. Section seven of the act approved the 20th day of May, 1864, invested the Attorney General with authority to proceed against the owners of unpatented lands, to enforce the payment of the arrears of purchase money, interest and fees due the Commonwealth on said lands. This power, by the following supplement, became vested in the Board of Property.]

[Act of 5th May, 1871, P. L. 261.]

A FURTHER SUPPLEMENT

To an act directing the entry of liens for the principal and interest due the Commonwealth for lands held by virtue of location or other office titles, approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four.

Section I. That the Board of Property shall have full and discretionary power as to the time of entering suits and the number thereof,

to be brought for the collection of liens against unpatented lands; and the Attorney General shall proceed, under the seventh section of the said act, to which this is a further supplement, when authorized to do so by the said board: Provided, That no interest shall be charged on patent or other fees.

[Act of 11th April, 1872, P. L. 51.]

A FURTHER SUPPLEMENT

To an act directing the entry of liens for the principal and interest due the Commonwealth for lands held by virtue of location or other office title, approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four.

Section I. That for carrying into full effect the provisions of the act to which this is supplementary, it shall be the duty of the Surveyor General to make out and forward to the several county surveyors, respectively, from time to time, as the Board of Property may determine, special lists of warrantee names of unpatented tracts, or remaining parts of unpatented tracts, of lands within the several counties, as the same may appear upon the land lien dockets, with such other data relating thereto as he may deem necessary.

Section II. That it shall be the duty of the county surveyor of each county, to whom the Surveyor General may send special lists of warrantee names of unpatented tracts or parts of tracts of land, and other data relating thereto, situate in the county for which such surveyor shall have been elected or appointed, to endeavor to ascertain the names and residences of the owners, agents or occupiers, and location of said tracts or parts of tracts, or any of them, and to give personal notice in writing to said owners, agents or occupiers, that said tracts or parts of tracts are unpatented, and that unless the arrearages shall have been paid within six months from the time of sending or serving said notice, the Board of Property may direct proceedings to be commenced by the Attorney General to enforce payment under the provisions of the act to which this is a further supplement: Provided, That when unpatented lands, as aforesaid, are occupied, and the owners are non-residents of the county, and have no known agent or agents within the county, the said notice may be given by sending it by mail, addressed to the owners or agents, and directed to the post office nearest their place of residence or usual place of business: And provided further, That when lands as aforesaid are unseated, and have been sold for taxes, and the time limited for their redemption has not expired, it shall be the duty of the county surveyor to give notice, in the manner hereinbefore provided, to the purchasers or their agents, and also to the parties or their agents, who last paid taxes thereon previous to the sale.

Section III. That it shall be the duty of the county surveyor to

whom such special list shall have been sent as aforesaid, to make a written report, in duplicate, within three months, to the Surveyor General, filing a copy of the same in the prothonotary's office of each county, setting forth the names of warrantees, dates of warrants, location of tracts, and the names and residence of the owners, agents or occupiers of the unpatented tracts or parts of tracts upon whom he has served the notices as aforesaid, together with the manner of service; and for serving such notices on all the owners, agents or occupiers of the unpatented tracts or parts of tracts upon whom he has served notices as aforesaid, together with the manner of service; and for serving such notices on all the owners, agents or occupiers of an original unpatented tract, or remaining part of an original unpatented tract, he shall be entitled to a fee of five dollars, to be paid out of the State Treasury on warrants drawn by the Auditor General, upon the certificate of the Surveyor General.

Section IV. That it shall be the duty of the county surveyor, upon the reasonable request of any owner, or his agent, of part of an original tract which has not been patented, to make and return a return of survey of such part to the Surveyor General, and for which service his fees shall be the same as for executing a warrant of survey as now provided by law for the same quantity of acres.

Section V. That when any suits shall be entered by the Attorney General under the act to which this is a further supplement, it shall be by "*scire facias sur liens*," which shall be directed for service to the sheriff of the county in which the land is situate; and if he finds it necessary to insure a service of said writ he may call to his aid the county surveyor, who shall act as his deputy for the purpose of serving such writ, and all such writs shall be made returnable to the court of common pleas of the county wherein such lands are situate, where all such suits shall be tried.

AN ACT

Providing for the collection of the amounts due the Commonwealth for purchase money, interest and fees due on unpatented lands.

Whereas, The General Assembly under and by virtue of the act approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four, and its supplements, provide for an unpatented land lien docket for the entry of liens therein to secure the purchase money, interest and fees due the Commonwealth on unpatented lands;

And whereas, The lien dockets now on file in the Department of Internal Affairs show that there are many of these liens unsatisfied, and, in the aggregate, a large amount of money still due the Commonwealth;

And whereas, It is impossible from the records on file to ascertain

who are the present owners of the lands against which these liens are entered; therefore,

Section 1. Be it enacted, &c., That it shall be the duty of the Secretary of Internal Affairs to ascertain so far as possible the owner or owners of the lands against which liens have been entered under the act of May twentieth, one thousand eight hundred and sixty-four, and its supplements, and to enforce collections of the amounts of money due the Commonwealth, by reason of the unpaid purchase money, interest and fees due on the lands heretofore sold by the Commonwealth, which now remain unpatented by reason of the unsettled accounts against such lands.

Section 2. That if any person or persons owning such unpatented lands against which there have been entered liens, and who shall refuse or longer neglect to pay the said lien or that portion thereof which applies to the part of the original tract which such person or persons own, it shall be the duty of the Secretary of Internal Affairs, after having satisfied himself as to the validity of the lien aforesaid, to take such action as he may deem proper to enforce the collection of the same, and for this purpose he is authorized to employ such assistance as he may deem necessary in the premises, or in case of refusal of any person or persons owning the lands against which such liens exist to pay the said amount due, the Secretary of Internal Affairs may certify the amount of such claim of the Commonwealth to the Attorney General, whose duty it shall be to proceed to collect the amount due the Commonwealth by a scire facias sur liens, which shall be directed to the sheriff of the county wherein the land against which the lien is entered may be situated.

Section 3. It shall be the duty of the clerk to the Board of Property to make a list of liens as they may be required under this act for use in the collection of the moneys due the Commonwealth, to which list shall be added the name of the original warrants, the number of acres of land covered by the lien, the location of the land as nearly as may be possible, the date of the entry of the lien, the amount thereof, including the fees and interest accrued thereon.

Section 4. That when the amount due the Commonwealth shall have been paid, satisfaction shall be entered on the lien docket in the Department of Internal Affairs, and a certificate, showing such payment and satisfaction, shall be made under the hand of the Secretary of Internal Affairs, attested by the seal of his Department and forwarded to the party entitled thereto, who, upon presentation of the same to the prothonotary of the proper county and the payment of the usual fee, shall have satisfaction entered upon the unpatented land lien docket of such county in attestation of the extinguishment of the lien of the Commonwealth for such purchase money, interest and fees.

Section 5. That all moneys received under the provisions of this

act, except as provided in section six of this act, shall be paid into the State Treasury, and when so paid and receipted by the State Treasurer it shall be the duty of the Secretary of Internal Affairs to issue patents for the land so discharged from the lien of the Commonwealth in the manner as patents are now granted in other cases.

Section 6. That from the moneys so collected there shall be deducted such amount for actual expenses incurred and service rendered in the enforcement of this act, as may be approved by the Auditor General and State Treasurer and Secretary of Internal Affairs.

Section 7. That whenever it shall appear from the land office records in the Department of Internal Affairs that warrants for land belonging to the Commonwealth have been legally granted, or that town lots have been sold by a commission representing the Commonwealth in conformity with the law authorizing the sale of such lots, and when there is no lien entered on record against such land or lots in the unpatented land lien docket authorized by the act of May twentieth, one thousand eight hundred and sixty-four, and its supplements, in the respective county in which said lands may lie, it shall be the duty of the Secretary of Internal Affairs to grant patents for such lands or lots in the usual form and manner, upon proof of ownership of such land or lots, and the payment of the patent fees now authorized by law.

Approved—The 26th day of May, A. D. 1897.

DANIEL H. HASTINGS.

STATE FORESTRY RESERVATION.

During the session of the Legislature of 1897 a bill was passed providing for the establishing of a Forestry Commission consisting of the Commissioner of Forestry, the Chairman of the State Board of Health, the Deputy Secretary of Internal Affairs and two other persons, one of whom shall be a lawyer or conveyancer and had at least ten years' experience, and the other a practical surveyor, to be appointed by the Governor. By this act it is provided that there shall be established three reservations of not less than 40,000 acres each for the purpose of cultivating forests, one of them to be located on the head waters of the Delaware River, one on the head waters of the Susquehanna river, and the other on the head waters of the Ohio river; the land selected to be of a character better suited to the growth of trees than to mining or agriculture, and to have an altitude of at least 600 feet above the level of the sea. Authority is given to the Commission to take lands by the right of eminent domain. In some of the states of the Union similar provision has been made for the growth of forests, and it seems that the purpose of the act is to be commended. There are many thousands of acres of land from which the timber has been

cut that is substantially valueless and can be had for a nominal sum. A suggestion has been made that two of the reservations be located contiguous to each other. The one to be located on the head waters of the Ohio and the other on the head waters of the Susquehanna might be located in the counties of Potter, McKean, Elk and Warren so as to embrace at least 80,000 acres. They would have more than the sufficient altitude above sea level, and the wild counties would be particularly adapted to the growth of new forests. Besides, the entire territory would be supplied with beautiful springs and streams of water suitable for the propagation of fish, and most of the territory would be so remote from villages and improvements that some attention could probably be given to the preservation of the species of wild animals that at one time existed in that territory, but are now fast becoming extinct. The Commission authorized by this act has never organized, and it is not known how soon it will organize for the purpose of commencing the discharge of the duties imposed by the act. For the information of the public the act is published herewith.

AN ACT

To secure State Forestry reservations, and providing for the expenses thereof.

Section 1. Be it enacted, &c., That a Commission, to be composed of the Commissioner of Forestry, the chairman of the State Board of Health, the Deputy Secretary of Internal Affairs, and two other persons, one of whom shall be a lawyer or conveyancer of at least ten year's professional experience, and the other one a practical surveyor, to be appointed by the Governor, be hereby created.

Section 2. The said Commission shall, after examination, locate and report to the Governor, or to the Legislature if it be in session, the following forestry reservations:

(1). One of not less than forty thousand acres upon waters which drain mainly into the Delaware river.

(2). One of not less than forty thousand acres upon waters which drain mainly into the Susquehanna river.

(3). One of not less than forty thousand acres upon waters which drain mainly into the Ohio river.

Provided, That each of these reservations shall be in one continuous area so far as the same is practicable.

Section 3. That the lands selected shall be of a character better suited to the growth of trees than to mining or agriculture, and that at least fifty per centum of the area of each reservation shall have an average altitude of not less than six hundred feet above the level of the sea.

Section 4. That the said Commission shall have full power to take by right of eminent domain and condemn the lands it has selected

for the purposes aforesaid as State reservations for the use and behoof of the Commonwealth, and wherever it shall be necessary to have a recourse to a jury to assess the damages for any property to be taken as aforesaid, the said jury shall consist of such number and shall proceed and their award shall be reviewed and enforced in the same manner as now provided by law for the taking of land for the opening of roads in the respective counties in which said property is situated. And all the lands acquired by the State for public reservations by the action of said Commission shall be paid for by the State Treasurer, upon a warrant drawn by the Auditor General of the Commonwealth, after approval by the Governor.

Section 5. The Commissioners appointed under this act shall serve without compensation, except so far as the officials designated hereby are compensated by the continuance of their salaries as such officials while serving as Commissioners, but the necessary expenses of travel and all other necessary expenses incurred under the provisions of this act shall be paid by the State Treasurer, on the warrant of the Auditor General, after due certification.

Section 6. Provided, That nothing herein contained shall authorize the taking, for the purpose of this act, of any land held by any corporation created for the purpose of the preservation of forests.

Approved—The 25th day of May, A. D. 1897.

DANIEL H. HASTINGS.

BOUNDARY LINES AND BOUNDARY LINE MONUMENTS.

In the report for the year ending June 30, 1896, a detailed statement was given of the condition of the monuments along the New York and Pennsylvania boundary line from the Delaware river to Lake Erie. The examination was made by joint commission on the part of New York and Pennsylvania. A large number of the monuments were found to be partially misplaced and in some cases mutilated to an extent that required the erection of new monuments. Subsequent to the close of the fiscal year covered by that report an arrangement was made by which new monuments were set and some of those in unserviceable condition repaired. The report of General Schall, who represented the State of Pennsylvania in the examinations of 1896, is herewith submitted to show the repairs made to monuments and the erection of new ones.

Norristown, Pa.

October 19, 1897.

Hon. James W. Latta, Secretary of Internal Affairs:

Dear Sir: I beg to state that the suggestions contained in the report of Mr. C. H. Flanigan and myself, submitted Dec. 28th, 1896, to yourself and the Hon. C. W. Adams, State Engineer of New York, for the

improvement and betterment of the Pennsylvania and New York Boundary Line have been carried into effect.

Four new monuments were placed on the line, and five others which had heaved and stood loosely and insecurely were lowered into position.

In the settings of all these monuments, we endeavored to guard against a recurrence of the heaving by placing dry earth around the monuments to its full depth; this earth was free from stones and thoroughly tramped.

New monuments were set at the following points.

Milestone 42.—This monument had been broken off two feet from the top; the lower part of it was removed, and the new stone placed on line over the original disc.

D. L. & W. R. R. Monument east of Waverly between milestones 57 and 58.

In the examination of the line in 1896, this monument was found to have broken off about a foot from the top, the upper part standing presumably in its proper place on the line. Since then it has been removed, and no trace of it could be found, either by a search or from information from the railroad section boss. We therefore ran a transit line from monument No. 138 through No. 137 to a point where the original monument stood between the two main tracks of the railroad. This part of the road bed has been raised during the past few years about five feet, so that now that part of the monument which remains in the ground has its top probably six feet below the surface. Owing to the nearness of the tracks and the nature of the material (cinder and gravel) we feared to make our excavations to the depth necessary to uncover the original monument but carefully checking our line, we set the new monument directly over, as we believe, the point occupied by the old one.

N. Y. and Pa. R. R. Monument, northeast of Genesee, between milestones 127 and 128. No monument marked the point where this railroad crosses the line as the road has been but recently built. Extending a transit line easterly from milestone 128 we set the new monument on the west side of the track, close to the ties.

Highway Monument at State Line Station between milestones 1 and 2 on the Meridian Boundary. This monument had been broken off at the surface of the ground. The lower part was removed, and the new monument set over the original disc.

The following were lowered into position:

Monuments 73, 74, 169, 249 and 250.

Very respectfully,

JOHN W. SCHALL.

It has been a number of years since the examination was made of the monuments marking the boundary line between Pennsylvania and

Ohio. It seems that there is no provision by the State of Ohio by which the authorities of that State are authorized to co-operate with the Pennsylvania authorities in this work. It was therefore thought advisable that this department should cause an examination to be made with a view of ascertaining the present condition of the monuments. Mr. W. E. Hewitt and Mr. E. R. Murray were designated as parties to represent the State in making an examination. Commencing at the terminus of the line on Lake Erie, the northwestern corner of the county of Erie, they proceeded to the southwestern corner of the State examining each monument in the entire line. Some of them were found in bad condition, and some were mutilated to an extent that the data thereon could scarcely be read, while others were partially displaced and in imperfect position. Some provision should be made by which this State can co-operate with the proper authorities in Ohio in the resetting and repair of such of these monuments as need attention. The report of the parties who represented the State in making examination of these monuments is published herewith.

No. 151.

The Secretary of Internal Affairs, Harrisburg, Pa.:

Having been appointed to examine the condition of the monuments marking the boundary line between the States of Pennsylvania and Ohio, also Pennsylvania and West Virginia, and after personal inspection of each monument on said boundary line, we respectfully submit the following report.

On the section between Lake Erie and the Ohio river, we find all monuments in proper place and position, and in good condition, except as follows:

- 1st Milestone leans west 12 degrees.
- 12th Milestone badly chipped on corners.
- 13th Milestone leans southeast 15 degrees.
- 17th Milestone leans east 45 degrees.
- 18th Milestone lettering badly damaged.
- 20th Milestone leans to West 45 degrees.
- 22nd Milestone in swamp, only 6 inches of index appears above ground.
- 24th Milestone badly chipped on corners.
- 25th Milestone entirely surrounded by water, and leans southward.
- 33rd Milestone leans southwest 45 degrees.
- 35th Milestone leans east 45 degrees.
- 41st Milestone badly mutilated, lettering in good condition.
- 43rd Milestone only point of index shows above ground.
- 47th Milestone index, stands on monument in wheel track of highway, and shows vehicle wear.

50th Milestone badly mutilated.

60th Milestone badly mutilated.

77th Milestone index stands 25 feet west of monument and marked accordingly, but this does not appear in "chaining notes."

78th Milestone: Index stands on monument chaining remarks say 19 feet west, but no marks on index to show the fact.

82nd Milestone under log and brush pile.

From the Ohio River to the southwest corner of Pennsylvania we find all monuments in proper place and position and in good condition, except as follows:

Monument on Independence road, 1 mile 1,396, 5 ft. south of 21st new monument tipped 45 degrees to east.

Monument on National Pike 1 mile 120, 5 feet south of 27th new monument shows about one-half of top broken off.

We also inspected each meridian monument and found them in good condition, also all of the original old stones mentioned in chaining remarks, and Mr. C. H. Vanorden's report of February 9, 1884.

All of which is respectively submitted.

E. R. MURRAY,
W. E. HEWITT.

BOUNDARY LINE BETWEEN THE STATES OF DELAWARE, MARYLAND AND PENNSYLVANIA, KNOWN AS THE CIR- CLE OF NEW CASTLE.

In the report for 1896, a detailed statement was given with reference to the laws authorizing the re-survey and re-location of the Circle of New Castle, which fixes the limits between the states of Delaware, Maryland and Pennsylvania. The report of the Commissioners appointed under the act of 1889 was duly made and filed in this department but no act of the Legislature of this State, or of Delaware, was passed to confirm the report of the Commission. In view of this fact an act was drawn up under the direction of this Department and presented to the Legislature of Pennsylvania in 1897. It was duly passed and became a law by the approval of the Governor. The act reads as follows:

No. 152.

AN ACT

Providing for the acceptance, approval and confirmation of the report of the commission appointed in pursuance of the act approved the Fourth day of May, Anno Domini, one thousand eight hundred and eighty-nine, authorizing the examination, survey and re-establishment of the circle of New Castle, as the boundary line between Pennsylvania and Delaware.

Whereas, By authority of the act of the General Assembly, approved the fourth day of May, Anno Domini one thousand eight hundred and eighty-nine, the Governor was authorized to appoint three persons

as commissioners to represent this Commonwealth, and acting in conjunction with a like number of persons appointed as commissioners to represent the state of Delaware, were as a commission representing the two states authorized to re-survey and re-establish the boundary line that separated the Commonwealth of Pennsylvania from the State of Delaware, and to mark or indicate the location of such boundary line by the erection of enduring monuments; and

Whereas, The commission, constituted as aforesaid, were authorized and required to make a detailed report of their field work with descriptions of monuments which might be erected to indicate the location of the line referred to, which report, together with all correspondence relating thereto, was required to be filed with the Secretary of Internal Affairs; and

Whereas, Such report, together with maps, details of field work and description of monuments erected, was filed in the office of the Secretary of Internal Affairs, January twenty-nine, one thousand eight hundred and ninety four, and a duplicate thereof filed with the proper authorities in the State of Delaware; which report was signed by the commissioners on the part of the Commonwealth of Pennsylvania, and which report indicates that the line of the Circle of New Castle was surveyed and re-established in substantially the same location as it originally had been and that enduring monuments were erected to indicate the location of the line of the circle, all in conformity with the provisions of the act of one thousand eight hundred and eighty-nine, authorizing the formation of the commission aforesaid; therefore,

Section 1. Be it enacted, &c., That the report of the commissioners appointed under the provisions of the act of General Assembly, approved the fourth day of May, Anno Domini one thousand eight hundred and eighty-nine, to examine, survey and re-establish the line of the Circle of New Castle as the boundary between Pennsylvania and Delaware, be and the same is hereby accepted, approved and confirmed, and that the line established by and under the authority of said commissioners, which is now marked by the erection of monuments to show its location, be and the same is hereby accepted, approved and confirmed as the proper and acceptable line to indicate the limits of the respective states of Pennsylvania and Delaware with reference to each other.

Approved—The 22d day of June, A. D. 1897.

DANIEL H. HASTINGS.

Upon the passage of this act a copy thereof was sent to the Secretary of State of Delaware, suggesting that a similar act be passed by the Legislature of that State. The suggestion, however, was made too late in the session, and it was found impossible under their rules of legislation to secure the passage of the act prior to the time fixed for adjournment. It is probable that the act will be passed during

the coming session of the Legislature of that State. When this is done, certified copies of the two acts confirming the report of the commission will be prepared and forwarded to Congress, with the request that the National Legislature approve of the same by suitable legislation. When this is done, and not until then, will the report of the commission of their re-survey and re-location of the Circle of New Castle be made effectual.

COUNTY LINES.

Under existing laws, where there are changes desired in the location of county lines, or where the lines have been re-surveyed for the purpose of ascertaining the exact location of the lines, it was the duty of the Commissioners appointed, to make such surveys and file their reports with the Department of Internal Affairs. An amendment was passed to this law by the last Legislature and is submitted herewith.

No. 125.

AN ACT

To amend an act approved May twenty-second, one thousand eight hundred and ninety-five, entitled "An act to provide for running and marking county lines, approved the seventeenth day of April, one thousand eight hundred and seventy-six, increasing the number of commissioners to five and providing for advertising," and further providing for the payment of the expenses of such commissioners and their assistants.

Section 1. Be it enacted, &c., That an act approved May twenty-second, one thousand eight hundred and ninety-five, entitled "An act to amend an act, entitled 'An act to provide for running and marking county lines,' approved April seventeenth, one thousand eight hundred and seventy-six, increasing the number of commissioners to five and providing for advertising," which reads as follows:

"Section 1. That when it shall appear to the satisfaction of the courts of quarter sessions of two adjoining counties, that the county line between them or any part thereof should be designated, surveyed and marked, a commission of five surveyors to designate, survey and mark the same shall be appointed, as follows:

"Section 2. Such commission shall be composed of one surveyor from each county appointed by the court of quarter sessions of each county, one to be appointed by the county commissioners of each of said counties, and the four surveyors so appointed shall select a fifth surveyor, and the five surveyors as appointed or selected, shall compose the commission to run said line, but no two of said surveyors shall be citizens of the same county. If any of said surveyors should die or

be unable to perform the duties required, then their places shall be filled in like manner as originally appointed.

“Section 3. Said surveyors shall take and subscribe an oath to perform their duties with impartiality and fidelity.

“Section 4. Before entering upon their duties said surveyors shall appoint, by advertisement in one or more newspapers in each of said counties, a time and place of meeting to hear parties interested in the location of said line, and after said hearing they shall carefully designate and mark the said line by suitable marks of permanent character.

“Section 5. The said surveyors, or a majority of them, shall make a report in writing, with a draft, showing the course and distances of the line so designated and determined upon by them, and the tracts of land through which it passes, and the roads and streams and buildings in close proximity, and copies of the said report shall be filed in each court and shall be approved by the court and ordered to be recorded.

“Section 6. The surveyors shall receive a compensation of four dollars a day for each day necessarily spent in the discharge of their duties. They may employ an axeman and two chain carriers at a compensation of two dollars a day.

“Section 7. The expense of the commission shall be paid by the counties jointly,” be and the same is hereby amended to read as follows:

Section 1. That when it shall appear to the satisfaction of the courts of quarter sessions of two adjoining counties, that the county line between such counties or any part thereof should be surveyed and marked, a commission composed of five surveyors to survey and mark the same shall be appointed, as follows:

Section 2. The respective courts of quarter sessions of such counties shall each appoint one surveyor, the respective boards of county commissioners of such counties shall each appoint one surveyor, and the four surveyors so appointed shall appoint one surveyor, but no two of such surveyors shall be citizens of the same county. If any of the surveyors so appointed shall refuse to serve, remove from the State, die, resign, or are or become incapacitated or unable from any cause to perform the duties required, appointments of substitutes shall be made in conformity with the provisions of this section of the first appointment.

Section 3. The members of such commission shall take and subscribe an oath to perform their duties impartially and with fidelity.

Section 4. Such commission shall meet and organize within two months of the date of its appointment; it shall select from its membership a presiding officer, also a secretary, who shall keep a full record of the proceedings and work of the commission. It shall appoint, by advertisement in one or more newspapers published in each of such

counties, a time and place of meeting, when and where parties interested in the location of such county line will be heard, after which hearing it shall, without unreasonable delay, carefully ascertain the location of survey and mark with suitable marks of a permanent character the old county line between such counties.

Section 5. The said commission, or a majority of its members in case of a disagreement, shall make a report in writing, and attach thereto a map or draft, showing the courses and distances of the line so ascertained, surveyed and marked, and the tracts of land through which it passes, and the buildings in close proximity, together with the roads and streams crossed or near thereto; and copies of such report and map, signed by the members of such commission or a majority of them, shall be filed in the court of quarter sessions of each of such counties, and if approved by such courts shall be ordered recorded in the records thereof, and the line so ascertained, surveyed and marked shall thenceforth be the boundary line between such counties.

Section 6. The surveyors composing such commission shall each receive a compensation of four dollars per day for all time necessarily spent in the discharge of their duties, and in addition thereto shall be reimbursed the necessary expenses paid by them, respectively, while engaged upon and in furtherance of the work of such commission.

The commission may employ as assistants, an axeman and two chain carriers, at a compensation of one dollar and fifty cents a day each, who shall likewise be reimbursed the actual necessary expenses paid by them, respectively, while in the employ of such commission: Provided, That the expenses paid by each of such surveyors and assistants for which they shall be entitled to reimbursement shall not exceed the rate of one dollar per day, each, for the time actually served upon the work of or with such commission: Provided further, however, That the necessary expenses incurred and paid by such commissioners in advertising their meeting pursuant to the directions of this act, and in procuring and setting the monuments needful to mark in a permanent manner such county line, shall be allowed and paid to the commission incurring such expense, in addition to the expenses for which they shall severally be reimbursed, as hereinbefore provided.

Section 7. The expense of the commission shall be paid by such counties jointly in equal parts upon presentation of properly itemized bills, duly verified by affidavit of the person claiming payment.

Section 8. The provisions of this act shall apply to all commissions heretofore appointed, as also to all commissions heretofore appointed whose reports have not been filed, but shall not affect or control any cases in which such reports have heretofore been filed in the proper courts.

Approved—The 14th day of June, A. D. 1897.

DANIEL H. HASTINGS.

BUREAU OF INDUSTRIAL STATISTICS.

The annual report of this Bureau is bound separately, and is known as Part III of the reports of the Department of Internal Affairs.

An interesting feature of the report of 1897 is a full and complete census of the manufacture of paper and pulp for the years 1887-1897, and comparisons made therewith, together with an elaborately illustrated historical and descriptive article on their manufacture.

Individual earnings which covered pig iron, rolled iron and steel, tin plate, window glass and the textiles in 1896, have been extended to coal mining, paper manufacture, knitting mills, women and children's fine shoes, and supplemented by additional earnings in pig iron and rolled iron and steel from other localities than represented in the report for 1896. The same care has been exercised in following the individual wage earner, without regard to high or low earnings, the only condition being that he shall have remained in the employment of the same firm for and during the year, whether he lost much time or worked steadily. The 1892 comparative series is continued.

Comparison is also made with the returns collected in 1896, which were then outlined as the basis for a new series of comparative work, that is, comparisons made from year to year with the same manufacturing establishments, showing the days of operation, persons employed, cost of raw material out of which the product was made, aggregate of wages paid to working people, the output and its market value. This work covers a much wider field and gives statistics in fuller detail than any previous comparative work published by the Bureau.

The report also contains a complete census of the production of pig iron, crude steel, iron and steel rolled into finished form and tin plate. The figures given are the result of the closest investigation and may be relied upon as correct.

BUREAU OF RAILWAYS.

Under the Constitution and laws of the Commonwealth all railway corporations, including both steam and street railways, and all telegraph, telephone and canal corporations are required to make annual reports to the Secretary of Internal Affairs for the fiscal year ending June 30th. The blanks used for making these reports are substantially the same as those used by the Interstate Commerce Commission at Washington, and are the same as those in general use in most of the leading states of the Union where supervision is exercised by State officials over such corporations. These blanks call for information with reference to capitalization, funded indebtedness, receipts, expenditures, tonnage of different classifications and any additional matters that may be important features of transportation. The reports are compiled and published as the Annual Report of the

Bureau of Railways of this Department and are designated No. IV of the Department reports.

For years it has been recommended that additional power should be given to the Bureau of Railways, so that the Superintendent or other person properly authorized, should at all times have the power to make examination of railway structures to determine whether or not they are in proper condition, in order that the greatest freedom from accident may be enjoyed by both passengers and employes. The great number of fatal and non-fatal accidents among passengers, employes and other persons is a strong argument in favor of this additional legislation. While the structures of the lines of most of the corporations in Pennsylvania are of a substantial and enduring character, it is nevertheless a fact that some of them have lines that are not in proper condition. Railway corporations to some extent enjoy, under their charters, privileges of extraordinary character and a duty rests upon them to conserve the public interests with all the conveniences obtainable for transportation purposes, especially with reference to the safety of passengers. For this reason a bill was prepared by this Department and introduced into the Legislature of 1897, which authorized the Railway Bureau to make annual investigations and examinations as to the conditions of both steam and electric roads, with particular reference to the road bed and equipment. This was done with a view of keeping them in the safest possible condition at all times. Although the bill was generally favored by the steam railway corporations, especially that feature which prevented the construction of grade crossings in all future railway construction, yet for some reason it was never reported from the committee to which it had been referred. In New York and in all New England states and in most of the southern and western states there exists such legislation as was recommended in this bill, and it is probable that there may be an awakening among the people on this subject before long, and that the legislation desired will find its way to the statute books of Pennsylvania. The plan suggested would involve but very slight expense to the Commonwealth, and when it is considered that there are so many thousands of persons killed and injured upon the railways, it seems to be a subject of so much importance that it ought to receive prompt attention at the hands of our legislators. All railways whose lines are in good condition with reference to structures and equipment would have no occasion to oppose such an enactment, and those whose structures and equipment are not in good condition would have no just cause for opposing it. The most stringent laws are passed in Pennsylvania with reference to the persons employed in the coal mines, with a view of preventing so far as possible accidents to this class of workers, and yet the percentage of casualties

among the miners is not so great as among the railway employes. This fact alone is a forcible argument in favor of the legislation recommended.

BUREAU OF MINES.

Under the organization of the Department of Internal Affairs, as made by Thomas J. Stewart, Secretary, a Bureau of Mines was created. There was, however, no authority of law for any official to act in the capacity of Superintendent of the Bureau, and the annual reports of the mine Inspectors, of both the anthracite and bituminous districts, were received, compiled and published by this department, although the Secretary had no authority to exercise any supervision over the Inspectors in regard to the discharge of the duties imposed upon them by law. It had been apparent for some time that such authority should be given to some State official, with a view of ascertaining whether or not the Inspectors were living up to the letter and the spirit of the law in regard to the enforcement of the rules and regulations relating to the safety of the persons employed in and about the mines of the Commonwealth. A bill was prepared and submitted to the session of the Legislature of 1897, providing, among other things, for the establishment of a Bureau of Mines in the Department of Internal Affairs, and a Chief for said Bureau and an assistant. The bill was passed and became a law by the approval of the Governor July 15, 1897. The provision with reference to the qualifications of the Chief of the Bureau reads as follows: "A competent person, having at least ten years practical experience in the working and ventilation of the coal mines of the State, and a practical and scientific knowledge of all noxious and dangerous gases in said mines."

The Chief of the Bureau thus created is required to devote his entire time to the duties of his office to the end that the mining laws of the State may be faithfully executed. He is invested with similar powers with reference to the examination of mines as are conferred upon the Inspectors in the several districts. He is also required to prescribe the form of blanks that shall be used in his office and by the Inspectors, and to investigate complaints made against either the employer or the employed, and is at all times accountable to the Secretary of Internal Affairs for the proper discharge of his duties. He is also given custody of the annual reports of the Inspectors and must prepare them for publication. He has authority to require any mine Inspector of either district to make special report on any subject relating to mining accidents or the mining business in general, whenever in his judgment he may think such such report would conserve the public interest or lead to greater safety or greater freedom from accident among the miners.

It is hoped that through the enactment of this new law, which will

undoubtedly result in a strict enforcement of existing laws regarding the safety of miners, there will be a lower percentage of fatal and non-fatal accidents among the thousands of workmen of this class in the Commonwealth.

ASSESSMENTS AND TAXES.

In accordance with the duties imposed upon the several boards of county commissioners throughout the Commonwealth, there have been made in tabular form to this Department lists of property taxable for local, county and State purposes in the several assessment districts. These returns were made on blanks furnished by this Department and show the number of taxables, the number of acres of cleared and timbered land, assessed value of all real estate, assessed value of real estate exempt from taxation, assessed value of real estate taxable, number of horses and cattle and value of same, values of salaries and emoluments of office, value of property taxable for county purposes, aggregate amount of county taxes assessed and the rate prevailing in each county, amount of money at interest, value of stages, omnibuses, hacks, etc., together with the aggregate value of the property taxable for state purposes at four mills on a dollar.

NUMBER OF TAXABLES.

The total number of taxables reported for the year 1897 by the several boards of county commissioners was 1,878,786. Last year the number was 1,782,586. Five years ago the number was 1,576,149. These figures indicate a gradual increase from year to year. In some counties the number fluctuates in a most remarkable degree. The large increase, found in some counties are probably due to the fact that it is important to secure as large an appropriation as possible from the State for the support of the public schools, and as the amount received has heretofore depended largely upon the number of taxables in each assessment or school district, it will be seen how important it is that the assessors in making their returns should give the entire number of taxables in their respective districts. The act of 1897, which provides another method of distributing the appropriations from the State Treasury for the support of the common schools, will probably have its effect upon the returns hereafter to be made of the number of taxables. Among the counties that show an increase in the number of taxables for the year are Beaver, Bedford, Berks, Lackawanna, Philadelphia, Schuylkill and Westmoreland, the latter county showing the largest percentage of increase. The counties showing a decrease are Cameron, Carbon, Clearfield, Dauphin, Delaware, Indiana, Lebanon, Snyder, Sullivan and Wyoming, the greatest decrease being in the county of Lebanon. As a matter of fact which is too strong to be refuted, there has been no decrease of the number of taxables in any

county. Therefore the returns that show a decrease, indicate that the assessors have made an error, or that former returns were incorrect. Some indication of the unreliability of these returns will be found when comparisons are made between the different returns made during a period of, say, five years, and these comparisons will reflect most unfavorably, not only upon the manner of making the returns of taxables, but also upon the making of assessment returns generally. For instance, in the year 1894, the number of taxables returned for the county of Philadelphia was 276,977; in the year 1895, 332,297; in the year 1896, 292,965; for the year covered by this report, 299,926. The commentary that may be made on these comparisons is that in 1895 the assessors of the county of Philadelphia were disposed to get as large a share of the State appropriation for the support of the common schools, as possible.

CLEARED AND TIMBERED LANDS.

Among the duties devolving upon the assessors is that of making returns to the County Commissioners of the number of acres of cleared and timbered land. Upon the receipt of this data it becomes the duty of the commissioners to make tabulation thereof and forward it to this Department for such use as may be made of it by the State government. Year after year comment has been made by this Department regarding the unreliability of the data thus obtained. There cannot of course be any change in the acreage within the confines of the Commonwealth; that was fixed a century ago. It was neither greater nor less than at the present time, and yet the figures returned showing the number of acres of cleared and timbered land change so remarkably that if the returns were looked upon with any degree of credence the acreage of the State would seem to be constantly fluctuating. This difficulty may be partially attributed to the fact that where the lumberman has gone into the forest and cut away the merchantable timber, he has left standing an undergrowth or some scrub timber not sufficiently valuable to cut and manufacture into lumber. This the assessors have undoubtedly found difficulty in classifying. Some of the assessors appear to treat such land as cleared land, while others continue to treat it as timbered land or eliminate it entirely from their returns. There may be some justification in taking either view of the case. While it must be admitted that the assessors do not exercise sufficient care in making these returns, yet it is also a fact that the law is defective and not sufficiently specific as to what the assessors should do under the circumstances indicated. There should be more than two classes of land within the Commonwealth. Cleared land should include only the land cleared for the purpose of grazing or cultivation. Timbered land should include all land upon which the timber is standing, or at least a portion thereof that is susceptible of

cutting and manufacturing into merchantable lumber. Then there should be another class including all lands upon which there is no merchantable timber and which have not been cleared for grazing purposes or cultivation. If the laws were so amended as to conform to the classifications suggested, then if the assessors did their duty faithfully it would probably be possible to give a close approximation of the acreage of the State with reference to its being cleared or timbered lands. When it is considered that one assessor may look upon the lands from which the timber has been cut as cleared land without its even being in condition for grazing purposes, much less for cultivation, and another assessor treats it as timbered land, while a third eliminates it entirely from his return, it will be seen how utterly valueless are the returns made to the Department on this subject. The law is on the statute books, however, and there is nothing to do except to execute it so far as possible. At the same time it must be understood that in the publication of any data with reference to cleared or timbered lands, the department regards such data as unworthy of confidence.

These returns show that in 1897 there were 15,794,080 acres of cleared lands and 9,237,743 acres of timbered land. In 1896, the number of acres of timbered land was only 8,733,548. Notwithstanding the mammoth tanneries in several of the wilder counties of the Commonwealth, and the sawmills along every mountain stream, with thousands of axemen all over the mountains and through the valleys of the wild counties demolishing the primeval forests, as they have been during the last year, and even during the last 25 years, yet we find that the returns of the assessors made to the county commissioners show an increase in the timbered lands of the Commonwealth of more than half a million acres. This comparison reinforces the opinion heretofore expressed that the data collected with reference to the acreage of cleared and timbered lands are most unreliable, and while comparisons made from year to year may be of interest on their face they are so misleading that a public official would not be justified in making deductions therefrom.

As there are large tracts of mountainous lands from which the timber is being taken each year that are substantially valueless after the timber has been cut, it has seemed to the Legislature important that some provision should be made to secure the title of such lands with a view of cultivating forests. Many of these lands become so valueless after the timber has been cut that they are sold for taxes and are usually purchased by some one at treasurer's sale for nominal sums. To enable the Commonwealth to secure title to such lands upon which forest culture may be commenced, provision was made by the last Legislature for the purchase of such lands, and vesting title of the same in the Commonwealth. The act referred to is as follows:

No. 10.

AN ACT

Authorizing the purchase by the Commonwealth of unseated lands for the non-payment of taxes, for the purpose of creating a State Forest Reservation.

Section 1. Be it enacted, &c., That from and after the first day of January, Anno Domini, one thousand eight hundred and ninety-eight, whenever any unseated lands within this Commonwealth shall, under existing laws, become liable to sale by the respective county treasurers or the county commissioners for non-payment of taxes, it shall be the duty of such treasurer and commissioners to publish a notice once a week for six consecutive weeks, in at least two newspapers of general circulation within the county in which the lands lie, and if two newspapers be not published in said county, then in one newspaper in or nearest to the same, which notice shall contain the names of the owners when known, the warrant numbers, names of warrantees when known, the number of acres contained in each tract, the township in which the same is located, and the sums due upon each tract for taxes; and further to mail to the Secretary of Agriculture and the Commissioner of Forestry, each ten copies of such printed advertisement immediately upon the publication thereof.

Section 2. It shall be the duty of the Commissioner of Forestry to inquire into and examine the location and character of the lands so advertised, and if in his judgment the same are so located and are of such a character as to make them desirable to the Commonwealth for the purpose of creating and maintaining a Forestry Reservation, he shall have power, at his discretion, to purchase any such lands for and in behalf of the Commonwealth at such tax sales, subject to the right of redemption under existing laws: Provided, however, That the bid made, and the price paid for said lands, shall in no case exceed the amount of taxes for the non-payment of which the same are being sold, and the costs. For all purchases so made in behalf of the Commonwealth, the Auditor General shall draw his warrant upon the State Treasurer to the order of the county treasurer, upon certificate filed by the Commissioner of Forestry with the said Auditor General.

Section 3. In the event of redemption of said lands, the redemption money paid shall be remitted to the State Treasurer by the county treasurer, with a statement describing the tract of land so redeemed.

Section 4. The title to all lands so purchased, and not redeemed after the expiration of the time limited for redemption, shall be taken as vested in the Commonwealth to the same extent, and with like effect as though such purchase had been made by an individual at such sale, and the county treasurer shall certify to the Secretary of Agriculture, lists of all lands purchased in behalf of the Common-

wealth and not redeemed within the time limited for such redemption, with a description of each tract as required by section one of this act, and thereafter such lands shall not be subject to further taxation while the same are owned by the Commonwealth. It shall be the duty of the Secretary of Agriculture to keep a record in a book, to be especially provided for that purpose, of all the lands so acquired by the Commonwealth, with full description of each tract, the character of the same, the date of purchase, the price paid, when the title became absolute, or if redeemed, the date of redemption.

Section 5. The lands so acquired by the Commonwealth shall be under the control and management of the Department of Agriculture, but assigned to the care of the Division of Forestry, and shall become part of a forestry reservation system, having in view the preservation of the water supply at the sources of the rivers of the State, and for the protection of the people of the Commonwealth and their property from destructive floods.

Section 6. All acts and parts of acts inconsistent herewith are hereby repealed.

Approved—The 30th day of March, A. D. 1897.

DANIEL H. HASTINGS.

One important duty devolving upon the State government is the preservation of such timber land as now remains, and also the protection of young timber that may be growing upon the tracts from which the primeval forest has been taken. A consideration has been proposed with reference to the same, and with a view of compelling county commissioners, and others connected with the duty of preserving the forests and protecting growing timber, to comply with the demands made upon them by the Commissioner of Forestry. The following act was passed by the last Legislature and approved by the Governor. It is published herewith for the information of the public.

No. 228.

AN ACT

To amend the first section of an act, entitled "An act to protect timber lands from fire," approved the second day of June, Anno Domini one thousand eight hundred and seventy, providing for a penalty in case of the failure of county commissioners to comply with the terms of said act, after demand made upon them by the Commissioner of Forestry, and providing for the Commonwealth bearing part of the expenses incurred under said act.

Section 1. Be it enacted, &c., That the first section of the act, entitled "An act to protect timber lands from fire," approved the second day of June, Anno Domini one thousand eight hundred and seventy, which reads as follows:

“Section 1. That it shall be the duty of the commissioners of the several counties of this Commonwealth to appoint persons under oath, whose duty it shall be to ferret out and bring to punishment all persons who either wilfully or otherwise cause the burning of timber lands, and to take measures to have such fires extinguished where it can be done; the expenses thereof to be paid out of the county treasury, the unseated land tax to be the first applied to such expenses,” shall be and the same is hereby amended to read as follows:

Section 1. That it shall be the duty of the commissioners of the several counties of this Commonwealth to appoint persons, under oath, whose duty it shall be to ferret out and bring to punishment all persons or corporations who either wilfully or otherwise cause the burning of timber lands within their respective counties, and to take measures to have such fires extinguished where it can be done; and on failure of the commissioners of any county, after demand made upon them by the Commissioner of Forestry of this Commonwealth, to comply with this provision, they shall be deemed guilty of a misdemeanor in office, and upon conviction thereof shall be fined in a sum not exceeding one hundred dollars, or suffer an imprisonment not exceeding two years, or both, at the discretion of the court. The expense incurred in the employment of the persons contemplated by this act, on and after the first day of January, Anno Domini one thousand eight hundred and ninety-eight, shall be paid, one-half out of the treasury of the respective county, and the remaining half of said expense shall be paid by the State Treasurer upon warrant from the Auditor General; but no such warrant shall be drawn until the commissioners of the proper county shall have first furnished, under oath or affirmation, to the Auditor General, a written itemized statement of such expense, and until the same is approved by the Auditor General: Provided, That in no case shall the expense to the Commonwealth growing out of this act exceed five hundred dollars for a single county in any one year.

Approved—The 15th day of July, A. D. 1897.

DANIEL H. HASTINGS.

VALUE OF ALL REAL ESTATE.

The value of real estate in the Commonwealth as returned by the commissioners of the various counties for the year was \$2,814,545,927. The amount last year was \$2,777,201,521. This includes the amount of property not only taxable, but also that returned by the assessors as exempt from taxation. Seven years ago returns indicated a value of \$2,256,151,310. It will be seen that there has been an apparent increase of \$558,394,617. The increase during the year was \$37,344,406. In Allegheny county the amount returned last year was \$499,636,395; for the year covered by this report, \$503,993,677. Philadelphia also

shows a marked increase over last year of \$21,716,967. Slight decreases are found in the counties of Cameron, Carbon, Clearfield, Greene, Huntingdon, Jefferson, Juniata, Potter, Sullivan, Tioga and Union. All the other counties show an increase. It is easy to understand why in some counties there should be a decrease in the value of real estate. For instance, in the county of Cameron, a county whose value has been largely that of its timber. It is not particularly noted for agricultural interests; nor has it any iron or coal of great value. As the timber is gradually cut away (which is the most valuable part of the real estate, especially in its mountainous territory) it will be seen that the value of the real estate would be decreased. It will be noted by a reference to the list of counties above quoted that with the exception of Greene, Huntingdon, Juniata and Union, it is easy to account for the decrease in the value of real estate on the line indicated above.

VALUE OF REAL ESTATE EXEMPT FROM TAXATION.

In 1891 the value of real estate exempt from taxation was \$153,814,427; in 1892, \$234,801,553; in 1893, \$239,243,753; in 1894, \$245,368,752; in 1895, \$270,920,645; in 1896, \$277,539,526; in 1897, \$282,977,287. These figures indicate an increase since 1891 of \$129,162,860. No returns were received from the counties of Fulton and McKean. In the case of the Commissioners of McKean county it was reported that their predecessors had not required returns to be made showing the real estate exempt from taxation, and it was impossible for them to get instructions to the board of assessors in time to make a return for the year 1897. The \$282,977,287 reported for the year would seem to include churches, school properties of all kinds and municipal properties. It is safe to say, however, that this amount will not cover either the school properties or the churches, while municipal properties in the several counties, cities, boroughs and townships will at least be a large fraction of the amount reported as indicating the total value of real estate exempt from taxation. It must be apparent, therefore, that the assessors do not see very much of the property that is exempt from taxation, or if seeing they disregard their duties with reference to making returns.

VALUE OF REAL ESTATE TAXABLE.

In 1891 the value of real estate taxable was reported at \$2,092,336,883; in 1892, \$2,308,767,431; in 1893, \$2,351,190,037; in 1894, \$2,389,232,748; in 1895, \$2,471,018,204; in 1896, \$2,499,661,995; in 1897, \$2,531,568,640. These figures indicate an increase in seven years of \$439,231,757, and for the year covered by this report \$31,906,535. In comparing the assessed valuation of real estate in the various counties, it is proper to call attention to the apparent inequality in the assess-

ment of taxes for county purposes in the different counties. For instance, in the county of Lehigh, with 30,858 taxables, a return is made of \$34,328,248; while in the county of Luzerne, with the valuable coal lands, large cities and with taxables numbering 84,587, the return amounts to but \$25,322,328. There must of necessity be a failure to properly execute the laws in one or the other of these counties; such disparities cannot exist in fact. How far the blame should be distributed between the county commissioners and the assessors who execute their orders is not known to this Department, but that there is a disregard of law as to the manner and rule of making returns can not be denied or disputed either by the assessors or by the commissioners having custody of the returns made for taxes in their respective counties. Unfavorable comment is often made by the people regarding the Legislature and public officials for the manner in which they discharge the duties imposed upon them by the Constitution and laws of the Commonwealth. It may be that this criticism is to some extent merited, but if there were such a disregard of law and duty on the part of State officials as is exhibited by the assessors' returns relative to the value of real estate taxable, there would be just cause for complaint. A study of the returns made by the assessors in the several ward assessment districts of a city, or in a township, will disclose the entire lack of judgment in ascertaining proper valuations for taxation or the most rank and flagrant favoritism that ever characterized public officials in the discharge of duty. How such defects can be avoided, how such a failure of justice is to be corrected, how such unfaithful acts may be prevented, depends upon the regard such officers shall have for the plain directions of the law with reference to making assessment valuations of real estate for taxation. It is difficult to find any laws upon the statute books of Pennsylvania that are more concise, more explicit or more readily understood than the laws that pertain to the assessment of real estate, and yet it is perhaps impossible to find any laws that are so completely and outrageously violated, disregarded and trampled upon. It is strange that the laws relating to a just valuation of real estate in order that taxes may be equitably levied in accordance with the spirit of law and the Constitution of the State should be so grossly violated. As before indicated, there can be no proper application of the spirit of the Constitution on the question of equity in taxation until there shall be a disposition on the part of the Commissioners throughout the Commonwealth to insist that the assessors shall obey the laws that govern them in the discharge of their duties. There is not a return made to this department from any county in the Commonwealth that does not in some way indicate a failure on the part of the assessors to faithfully discharge their duty. The importance of this subject cannot be too strongly emphasized, for how unjust it is that Mr. A,

owning a piece of property in value equal to that owned by Mr. B, is required to pay double the amount of taxes paid by Mr. B for county, city or township purposes. Such an application of the tax laws destroys faithful citizenship, gives the injured person a feeling of disrespect for our form of government, and in many ways leads to contention and unfavorable conditions.

NUMBER AND VALUE OF HORSES, MARES, GELDINGS AND MULES OVER THE AGE OF FOUR YEARS.

In 1894, the number of horses, etc., reported was 550,134, and the value \$30,162,309; in 1895 the number was 576,767, and the value \$25,403,400; in 1896 the number was 578,022, and the value \$23,163,987; in 1897 the number was 587,846, and the value \$22,744,566. It will be seen that while in 1894 the 550,134 were valued at \$30,162,309, the 587,846 reported during the past year were valued at only \$22,744,516. Since 1891 there has been a decrease in the value of these animals of \$10,032,944, while the decrease from last year has been \$419,471. In the observations made from year to year in the reports of this department it has been indicated that the introduction of electricity and the bicycle has been a prolific cause of the reduction in the value of these animals. In very few of the cities of the Commonwealth are the cars now moved by horse power, and the consequent decrease in the demand for horses for the purpose of hauling street cars is sufficient in itself to greatly reduce the value of horses, and it will be but a short time before electricity will supplant the horse in all street railways and probably in some other directions.

NUMBER AND VALUE OF NEAT CATTLE OVER THE AGE OF FOUR YEARS.

In 1894 the number of neat cattle reported was 672,023, and the value \$11,565,283; in 1895 the number was 667,788, and the value \$11,660,891; in 1896 the number was 632,806, and the value \$11,681,963, and in 1897, the number was 655,895, and the value \$11,433,934, showing an increase in the number and a decrease in the value during the past year.

The following table gives some interesting comparative data with reference to the average value of neat cattle during each of the years from 1888 to 1897, inclusive. In 1888 there were 616,180 cattle reported, valued at \$12,089,497, or an average value of \$19.62. The highest number was reported in 1892, to-wit, 707,995, valued at \$12,384,879, or an average value of \$17.49. The lowest number reported was in 1888, to-wit, 616,180, valued at \$12,089,497, or an average value of \$19.62. It will be seen that there has been but little change in the average value per head of cattle during the period covered by the table.

	Number and value of neat cattle over the age of four years returned for the last ten years.	Average value per head per year as per return.
	Number.	Value.
1888,.....	616,180	\$12,089,497
1889,.....	677,547	12,182,568
1890,.....	661,750	12,334,564
1891,.....	674,338	12,423,333
1892,.....	707,395	12,384,879
1893,.....	692,279	12,148,429
1894,.....	672,023	11,565,283
1895,.....	667,788	11,660,891
1896,.....	632,806	11,681,963
1897,.....	655,895	11,433,934
	6,622,584	\$119,905,341

Average price per head for ten years, \$18.01.

A different condition exists, however, when comparisons are made of the number, value and average value per head of horses, mares, geldings and mules, as disclosed in the following tables.

In 1888 there were 475,204 animals returned under this head, valued at \$30,091,845, or an average value of \$63.32. The highest number returned was in 1897, to-wit, 587,846, valued at \$22,744,516, or an average value of \$38.69.

	Number and value of horses mares, geldings and mules over the age of four years, returned for the last ten years.	The average value per head per year as per return.
	Number.	Value.
1888,.....	485,204	\$30,091,845
1889,.....	500,608	31,825,341
1890,.....	513,180	32,279,513
1891,.....	506,988	32,777,460
1892,.....	544,910	33,361,391
1893,.....	561,368	32,585,620
1894,.....	550,134	30,162,309
1895,.....	576,767	25,403,400
1896,.....	578,022	23,163,987
1897,.....	587,846	22,744,516
	5,395,027	\$294,395,382

Average value per head for ten years, \$54.57.

These figures indicate a remarkable change in the average value of these animals, for it seems that the 475,204 returned in 1888, were valued at \$7,347,329 more than the 587,846 returned in 1897.

During the ten years the average value has been \$54.57. The highest average value was in 1891, when it was \$64.65. As before indicated, there has been but little change in the average value of cattle, but there has been a marked reduction in the values of horses, mules, etc., attributable as heretofore stated, to the very extensive introduction of electricity and the bicycle for the purposes for which animal power has always been used.

AGGREGATE AMOUNT OF COUNTY TAXES ASSESSED.

The aggregate amount of taxes assessed and collected for county purposes is shown by the tabulations to be of considerable interest in the way of comparison to show the economy or lack of economy enforced in the support of the several county governments. The amount of taxes assessed for county purposes in the year 1891 was \$18,250,660.87; in 1892, \$19,829,680.78; in 1893, \$18,851,798.73; in 1894, \$19,935,994.04; in 1895, \$20,387,168.08; in 1896, \$20,758,185.06; in 1897, \$21,251,267.21. The rate of taxation in the several counties for the support of the county governments is fixed by the respective boards of county commissioners. Where there is no county debt and through economical administration the expenses are light, there is of course a low rate of taxation, but where county debts exist and large expenditures are made for the support of the poor, where extraordinary expenses are incurred in the way of building and maintaining expensive bridges and good roads, if such there be, the rate of taxation must necessarily be high. A study of the preceding figures showing the total amount of tax assessed for county purposes since 1891 shows a uniformity that does not generally exist in the returns made by the county commissioners on other subjects. Since 1891 the increase has been less than \$2,000,000. Among the counties that show a considerable increase are Beaver, Blair, Butler, Chester, Columbia, Lackawanna, Luzerne, Northumberland, Westmoreland and York. Among the counties that show a decrease are Allegheny, Cameron, Carbon, Clinton, Fulton, Lebanon, Mercer, Montour, Potter, Sullivan and Washington. The total increase in the State since last year was \$513,082.13. As every county of the State made a return on this subject, it may be presumed that the above amount, to-wit, \$21,251,267.21, is a close approximation to the amount expended during the year for the maintenance of the several county governments of the Commonwealth.

AMOUNT OF MONEY AT INTEREST, INCLUDING MORTGAGES, JUDGMENTS, BONDS, NOTES, STOCKS, ETC.

Up to the time of the passage of the act of 1885, the amount of money returned at interest was probably but a small fraction of the actual amount that should have been reported. The machinery furnished by the Legislature to enforce a proper return of money at interest resulted in the State securing a larger amount of tax upon this subject of taxation than it had ever been able to procure before. The reports made to this Department prior to 1885 clearly indicate this, but while this is true, it is also apparent from a comparison made since 1891 that there has been a steady increase in the amount of money at interest. In 1891, the amount returned was \$579,036,227; in 1892, \$590,882,560; in 1893, \$607,664,408; in 1894, \$616,043,542; in 1895, \$620,020,507; in 1896, \$670,803,246; in 1897, \$675,713,437. These figures indicate an increase since 1891 of \$96,677,240 and an increase during the year of \$4,910,191. Effectual as may be the machinery provided by law for securing full returns of money at interest, it is entirely probable that there is much more at interest than is indicated by these returns. Human nature is not of that high standard generally that will induce men to make a complete return of money for the purpose of State taxation, if it can be easily avoided. The county showing the greatest decrease in the amount of money at interest is Potter. In 1896 this county returned \$734,560, while last year it returns only \$547,480, a decrease of \$187,080.

VALUE OF STAGES, OMNIBUSES, HACKS, CABS, ETC.

The tax laws of the Commonwealth are probably violated to a greater extent with reference to a proper assessment of the value of stages, omnibuses, etc., than in any other direction. A study of the consolidated table showing the amount returned by each county will be convincing proof of the entire failure of the law, so far as this subject of taxation is concerned. It cannot be denied that there is a large amount of money invested in this class of property, and yet the amount returned by some of the counties is so trifling as to be hardly worth mentioning and belittles the county from which the return is made. In 1891 the amount returned in the State was \$636,667; in 1892, \$627,179; in 1893, \$508,204; in 1894, \$570,061; in 1895, \$554,467; in 1896, \$530,819; in 1897, \$519,680. It will be seen from these figures that the value of this class of property was \$100,000 less in 1897 than it was in 1891. This can scarcely represent the facts. It is possible, however, that the very general use of the bicycle may have to some extent prevented additions to the number of carriages and other vehicles in use in the Commonwealth. It is evident that the use of the bicycle has reduced the value of horses and impaired the income of

the street railway, and it is not presumptuous, perhaps, to assume that it has also affected the value of stages, omnibuses, etc. While this may be true, it is undoubtedly a fact that hundreds of thousands of dollars worth of this class of property escapes taxation. In some of the larger counties where it must be admitted that there is a vast amount of money invested in this way, but small amounts are returned for taxation. For instance, in the county of Lackawanna, where there are probably several hundred thousand dollars invested in stages, omnibuses, et., the returns show only \$21,595. Several of the counties, judging from their returns, are entirely without property of this class. Among these counties are Cameron, Fulton, Juniata, McKean, Luzerne, Potter, and Snyder. Although the returns of the commissioners of Luzerne county indicate that there are no vehicles in that county subject to taxation, yet it is apparent to any one who alights from the cars in the city of Wilkes-Barre that there are many such conveyances in that county ready to render the public service in conveying passengers to different parts of the city.

AMOUNT OF STATE TAX COLLECTED FROM MONEY AT INTEREST, STAGES, OMNIBUSES, ETC., PROPERTY TAXABLE FOR STATE PURPOSES AT THE RATE OF FOUR MILLS ON THE DOLLAR.

Under this head of taxation the State received, in 1891, \$1,748,448.66; in 1892, \$2,365,989.61; in 1893, \$2,433,011.84; in 1894, \$2,466,451.31; in 1895, \$2,482,507.52; in 1896, \$2,685,375.92; in 1897, \$2,702,003.64, showing an increase of \$16,627.72 over the amount returned for the year 1896, and an increase of \$953,554.98, over the amount returned in 1891; the total amount of taxes paid on this class of property in 1897, to wit: \$2,702,003.64, \$1,378,123.28 was paid by the city of Philadelphia.

The counties showing the greatest increase of State tax collected are Butler, Cambria, Cumberland, Franklin, Lawrence, Lebanon, Lehigh, Luzerne, Philadelphia and Westmoreland. The counties showing the greatest falling off are Armstrong, Beaver, Berks, Blair, Centre, Chester, Dauphin, Delaware, Elk, Fayette, Jefferson, Lackawanna, Montgomery, Schuylkill, Washington and Wyoming.

COUNTY DEBT.

The total amount of county indebtedness reported is \$67,975,000.38. Allegheny county reporting \$3,308,160.67, and Philadelphia, \$58,717,041.83.

The counties reporting no debt are Bucks, Butler, Cambria, Centre, Clarion, Cumberland, Erie, Franklin, Greene, Lawrence, Lehigh, McKean, Pike, Venango, Washington and Wyoming.

Bradford county, which reported no debt last year, has a debt of

\$150,000 this year. Fulton which reported no debt in 1896, reports a debt of \$3,773 this year. Cambria reported a debt of \$10,000 last year, and reports none this year.

The counties that have increased their indebtedness during the year are Adams, Armstrong, Berks, Blair, Crawford, Forest, Indiana, Lackawanna, Lancaster, Northumberland, Perry and Philadelphia. A notable increase in the indebtedness is observed in the county of Blair, which reported a debt of \$156,500, in 1896, and \$205,500, in 1897, an increase of \$49,000 during the year. Lackawanna reported a debt of \$120,000, for 1896, and \$255,000, for 1897, an increase of \$135,000 during the year, more than double the amount reported last year. Lancaster also increased her indebtedness from \$170,800, in 1896, to \$270,000 in 1897. All the other counties maintain the same indebtedness, or have reduced the amount.

The total amount of indebtedness reported in 1891 was \$84,773.-192.42; in 1892, \$63,602,502.43; in 1893, \$63,982,537.24; in 1894, \$63,743,368.40; in 1895, \$62,937,468.01; in 1896, \$62,615,279.83 and in 1897, \$67,975,000.38, an increase of \$5,359,720.55, over the amount returned in 1896, and a decrease of \$16,798,192.04 from the amount returned in 1891.

The information referred to in these observations under the several headings is tabulated and published in Part II of the annual report immediately preceding the tabulations referring to the total amount of taxes collected for all purposes. A comparison of these tables with tables of former years will be of interest to those who have made or who are now making an investigation of the assessment of real and personal property for the purpose of taxation. No one who has not made a study of the data contained in this report and in previous reports of this Department will be prepared to make a proper recommendation to the Legislature with a view of equalizing the burdens of taxation.

TAXES.

The Department of Internal Affairs, by reason of the duty imposed under the act of 1889, is required to collect information from the commissioners of the several counties showing the amount of money collected for the following purposes:

1. For the support of the poor.
2. For the construction and repairs of streets, roads and bridges.
3. For the support of the common schools.
4. For other purposes than those above enumerated, including maintenance of county and municipal governments.
5. Total amount of taxes collected for all purposes, including all amounts collected from the granting of licenses.

The first year after the enactment of the law referred to it was im-

possible to collect data from all counties. A large number reported through the boards of commission that they were unable to execute the law. Each year, however, the number of counties failing to make report has become gradually less, and it is a gratification to state that for the current year every county in the State has made a fairly complete return of the taxes collected for the purposes above indicated. In addition to the tables with reference to the amount of taxes collected for the purposes named, the act of 1889 also authorizes the commissioners to make return to this department: (1) amount of taxes collected on personal property; (2) amount of taxes collected on occupations; (3) amount of licenses of all kinds, including wholesale and retail liquor licenses; (4) amount of taxes collected on real estate of railroad corporations; (5) amount of taxes collected on real estate of corporations other than railroads, including limited partnerships.

The reports from the commissioners of the several counties have been compiled and the data arranged in consolidated form and published in Part II of this report, immediately following the detailed report of the commissioners on the same subject. The tables for making the annual reports are arranged in five columns. The first column, it will be observed, is devoted to the amount of taxes collected especially for the support of the poor; the second to the amount collected for the construction and repairs of streets, roads and bridges; the third to the amount collected for the support of the common schools; the fourth to the amount collected for other purposes, and the fifth contains the totals ascertained from the additions of the amounts given in the four preceding columns. In a number of counties no direct tax is collected for the support of the poor. Hence the commissioners in making their returns, as will be observed by an examination of this report, leave the first column blank, but in a note on the report they indicate the amount appropriated by their board for this purpose, the money being derived from a general levy for county purposes, and the amount therefor appears in column 4, which as before stated includes the amounts collected for the support and maintenance of county government. In the consolidated table, however, we have entered in column one the amount appropriated for the support of the poor in those counties where poor houses exist and where no direct tax is levied for the maintenance of the poor, and in order not to duplicate amounts such appropriations have been deducted from the total amount collected in each county, as appears in column 5. The commissioners in a number of counties have also made appropriations for the maintenance of bridges. The money thus appropriated has been derived from the general levy for county purposes. Where such conditions exist, we have, in arranging the consolidated tables, deducted from column five the amount thus appropriated, and added it to column two, to avoid duplication of

amounts. It is necessary to know this in order to understand the discrepancies that appear to exist between the detailed statements submitted by the several boards of commissioners and consolidated table herewith.

TAXES COLLECTED FOR THE SUPPORT OF THE POOR.

By reference to the consolidated table showing the total amount of taxes collected for all purposes, it will be seen that the total amount expended during the year for the maintenance of the poor was \$2,424,337.76, the greatest amount, of course, being expended by the county of Philadelphia, to-wit. \$522,592.17. Allegheny county expended \$249,260.20. The next highest amount was expended by Lackawanna county \$110,461.13. The county expending the lowest amount was Fulton, where it was only \$1,965.33.

TAXES COLLECTED FOR THE CONSTRUCTION AND REPAIRS OF STREETS, ROADS AND BRIDGES.

In recent years there has been much in the public press and much heard in the halls of legislation regarding the improvement of the public highways. In this connection it may be of interest to know that the returns of the several boards of county commissioners show that the total amount expended during the year for this purpose was \$9,834,958.12. Of this amount it will be observed that a large proportion was expended in the counties in which large cities exist. For instance, in the city of Philadelphia the amount was \$1,649,071.16, and in the county of Allegheny \$2,061,678.06. It scarcely seems possible that there should be a greater amount expended for this purpose in the county of Allegheny than in the county of Philadelphia, where the city is co-extensive with the limits of the county, for in Allegheny county there is much rural territory where the expense of the maintenance of streets, roads and bridges would not seem to be so great as within the limits of a city. However, in considering this matter, it must be understood that these returns only embrace taxation for general purposes and do not include special taxes levied upon abutting property owners for the paving of streets or the construction of sewers. Philadelphia and Allegheny are the only counties that have expended a million dollars for this purpose. Lancaster county expended \$300,569.35; Montgomery, \$393,142.54; Schuylkill, \$206,720.34; Westmoreland, \$235,892.04. If the very large amount of money annually expended for the construction and maintenance of streets, roads and bridges is judiciously used, there ought to be a material improvement in the condition, not only of the streets in the cities, but of the roads throughout the country districts.

TAXES COLLECTED FOR THE SUPPORT OF THE COMMON SCHOOLS.

During the year the amount collected for the support of the schools was \$11,204,999.86. This does not include the moneys appropriated directly from the State Treasurer and distributed among the school districts of the Commonwealth for this purpose; it embraces only such taxes as are levied and collected from the people. \$1,433,837.01 was collected from the taxpayers of the county of Allegheny, and \$2,842,946.29 from the taxpayers of the county of Philadelphia. These are the only two counties in which the amount collected has exceeded one million dollars. In fact there was no other county in the State in which the amount reached five hundred thousand dollars. The amount collected in Berks county for this purpose was \$254,598.02; in Dauphin, \$223,821.40; in Erie, \$227,333.44; in Lackawanna, \$399,745.01; in Lancaster, \$254,799.57; in Luzerne, \$404,810.52; in Montgomery, \$278,720.49; in Northampton, \$203,914.77; in Schuylkill, \$324,853.17; in Westmoreland, \$212,508.36. In no other county has the amount exceeded \$200,000. The county reporting the smallest amount was Fulton, \$6,257.28. The annual appropriation under existing laws from the State Treasurer for the support of the common school system was \$5,500,000, which added to the \$11,204,999.86 collected directly from the people, makes the annual expenditure \$16,704,999.86. This is a very large amount of money expended for a very worthy purpose, and ought to eliminate the most of the illiteracy that exists within the limits of the Commonwealth. It will be seen that more than one-third of the expense of maintaining the common school system is paid directly from the State Treasury. This is an exhibition of liberality on the part of the State that is not equaled by any other State in the Union. When it is remembered that the Constitution of 1874 provides that only one million dollars annually shall be appropriated and distributed among the school districts of the Commonwealth for this purpose, there can scarcely be found any one who would have the temerity to complain that the State is not doing its full duty in the direction of the education of the youth within her borders. It must be remembered also that in addition to the \$5,500,000 annual appropriation there are many hundreds of thousands appropriated to other educational institutions of the State, which swell very largely the amount the State is expending for educational purposes. For instance, there have been millions of dollars devoted to the education of the orphans of the soldiers who either fell during the War of the Rebellion or were so disabled as to be incapacitated from earning a sufficient amount of money to properly educate their children. Then, in addition, the State College and several other educational institutions annually receive substantial assistance in the way of appropriations. A very large percentage of the money thus devoted to educa-

tional purposes comes from the amount paid directly into the State Treasury as tax upon the capital stock of corporations, their loans and their receipts. This is a condition in marked contrast to that which existed twenty-five or thirty years ago when the real estate of all classes was subject to a tax for the maintenance of the State government, and when no appropriations were made by the State for the support of local governments; when all the monies received from licenses were used for the revenues of the State, and when all the taxes on money at interest were applied to State revenues. In addition to the amount appropriated from the State Treasury to the common schools, all the moneys now derived from the granting of retail licenses for the sale of liquor is given to the township, city and county governments for their maintenance, except the additional amount which was placed upon the retail vendors of liquor by the act of 1897, to-wit, \$25.00 in townships, \$50.00 in boroughs, \$50.00 in cities of the third class, and \$100.00 in cities of the first and second classes. In addition to this, the personal property tax, all of which was formerly devoted to the maintenance of the State government, there is now returned to the county treasuries three-fourths of all such tax collected.

TAXES COLLECTED FOR OTHER PURPOSES THAN THE SUPPORT OF THE POOR, CONSTRUCTION AND REPAIRS OF STREETS, ROADS AND BRIDGES, AND THE SUPPORT OF THE COMMON SCHOOLS.

Under this heading is included the amount of taxes collected for the maintenance of the township, borough, city and county governments, including also the wholesale and retail liquor licenses and any other tax of a general character not included in the consolidated tables of columns 1, 2 and 3. The amount collected under this head during the year was \$25,809,497.56. Of this amount \$10,550,857.24 was collected in the city of Philadelphia, and \$7,766,444.34 in the county of Allegheny. The amounts collected for the purposes named appear in column 4 of the detailed report of the county commissioners and in column 4 of the consolidated tabulations. It is to be understood, of course, that the amounts given do not include any special tax levied for the paving of streets or the construction of sewers or for any other purpose where the tax is not levied for general purposes. In other words, the paving of streets, the construction of sewers and the macadamizing are paid for usually by the foot front on properties abutting on the streets where such improvements are made, and the amounts so collected are not a general levy upon all classes of property, and are not therefore, or ought not to be, included by the commissioners in their returns to this department. In column 5 of the detailed report of the commissioners and also in column 5 of the consolidated tabulations will be found the total amount of money

collected in the way of taxes and licenses for all purposes in the entire Commonwealth. By this is meant the taxes collected by local authorities, although a portion of the same, such as wholesale liquor licenses and personal property tax, are subsequently paid by the county treasurers into the Commonwealth as a portion of the revenues of the Commonwealth. It does not include the tax on the capital stock or the tax upon the loans of corporations, which are paid directly into the State Treasury on settlements made to the Auditor General. By reference to the consolidated table it will be found that the total amount of tax and licenses so collected was \$49,273,793.30. Of this amount \$15,565,466.86 was collected in the county of Philadelphia, and \$11,511,219.61 in the county of Allegheny. The only other county in the Commonwealth that reaches the million mark is Lackawanna with \$1,029,296.81. Two other counties which come close to the million mark, are Berks, with \$903,324.62 and Lancaster with \$948,670.22.

TAXES COLLECTED ON PERSONAL PROPERTY.

In column 6 of the detailed reports of the county commissioners and column 6 of the consolidated tabulations will be found the amount returned as collected on personal property, amounting to \$2,965,548.08. This amount, it must be understood, is included in the total amount of taxes collected in the State as given in column 5 of the consolidated tabulations. This observation is also true with reference to the amount of tax collected on occupations, the amount collected on licenses, the amount collected on the real estate of railway corporations and the amount collected on the real estate of corporations other than railways, including limited partnerships.

TAXES COLLECTED ON OCCUPATIONS.

The amount collected during the year was \$1,274,543.92. In many of the counties there is evidently a loose way of executing the existing laws with reference to the collection of taxes on occupation. For instance, in Philadelphia no return is made of the amount collected on this subject, and a similar condition exists in the county of Dauphin, and also in many of the assessment districts, which indicates that the law is ignored. The amount of money, however, derived from the State is a considerable amount and can scarcely at this time be spared from the revenues of the several classes of local government.

TAXES COLLECTED ON LICENSES.

\$5,107,577.41 is shown by the returns to be the amount derived from wholesale and retail liquor licenses and from all other licenses in the Commonwealth. On account of the increase of license placed upon the wholesale and retail vendors of liquor, brewers and bottlers,

it may be presumed that the next annual returns of the county commissioners will show a much larger amount collected from these sources of taxation.

TAXES COLLECTED ON REAL ESTATE OF RAILROAD CORPORATIONS.

Among other things required by the act of 1889 was the securing of a return which would show the amount of taxes collected on the real estate of railroad corporations of the State. This was done under the apprehension, undoubtedly that many people believed the railroad corporations were not paying their fair share of taxes. To those who do not understand the matter of collecting taxes from railroad corporations, it may be a surprise to learn that the amount paid upon the real estate owned by such corporations during the year covered by this report was but \$813,197.02. In considering this species of taxation it must not be forgotten that the major portion of the tax paid by railroad corporations is paid on their capital stock, bonded indebtedness and gross receipts, and that the amount is determined by ascertaining the value of the capital stock and assessing thereon a tax of 5 mills and also by placing a 4 mill tax on their bonded indebtedness. This settlement is made by the Auditor General and State Treasurer and the monies derived as taxes are paid directly into the State Treasury, and in no instance do they pass through the hands of the local authorities, and therefore do not appear in the amount returned in column 9 of the detailed report and consolidated tabulations. In the counties of Allegheny and Philadelphia the real estate of railroad corporations are by special laws subject to a levy of tax for local purposes, but in the other counties of the State, so far as has been ascertained, the only real estate owned by railroad corporations subject to local taxation is that which such corporations own which is not necessary for their use in discharging the duties of common carriers. For instance, the railroad tracks, the stations, freight depots of common carrier corporations are, with the exceptions referred to, exempt from local taxation by the payment of a tax on capital stock, bonded indebtedness and gross receipts. If, however, such a common carrier corporation owns property such as residences for its offices, which are not essential for carrying out the purposes for which the corporation was incorporated, such property is liable under the decisions of the Supreme Court for local taxation, although it may be a part of a property as represented by the capital stock. These comments are made with a view of showing that the \$813,197.62 referred to is only a small amount of the actual tax paid by rail way corporations in the State of Pennsylvania.

TAXES COLLECTED ON REAL ESTATE OF CORPORATIONS OTHER THAN RAILROADS, INCLUDING LIMITED PART- NERSHIPS.

Under this heading the amount collected during the year was \$2,581,656.25. This amount includes the money collected on real estate of manufacturing and other corporations, including limited partnerships. These corporations also paid a tax on their capital stock and loans into the State Treasury, but are not required to pay anything upon their gross receipts. The returns are somewhat incomplete. In the county of Philadelphia it is claimed by the board of revision of taxes that they have no classification which enables them to make a return showing the amount of taxes collected through these sources. There are several other counties in which large manufacturing establishments are located that show no returns of taxes collected under this heading, and therefore any deductions made from the figures at hand would be of little value.

PER CAPITA AMOUNT OF TAXES COLLECTED IN THE SEV- ERAL COUNTIES OF THE COMMONWEALTH.

An additional consolidated tabulation has been made and will be found immediately following the consolidated table showing the total amount of taxes collected in the Commonwealth. In this tabulation is given, for each county:

1. The per capita amount of taxes collected for the support of the poor.
2. The per capita amount of taxes collected for the construction and repairs of streets, roads and bridges.
3. The per capita amount of taxes collected for the support of the common schools, not including any appropriation received from the State.
4. The per capita amount of taxes collected for other purposes, including maintenance of county and other local governments.
5. The per capita amount of taxes collected for all purposes.

This tabulation, based upon the population of the State at the time the last census was taken, may be in some instances misleading, but this will only be the case where there has been a greater proportion of increase in one county than in another. As it is the best data at hand for the purpose of ascertaining the amount of per capita tax collected for the different purposes in the several counties, it will be found of some interest to those who make a study of this subject, particularly with a view of ascertaining how the per capita tax in one county compares with that of another. By reference to this additional tabulation it will be seen that in the entire State there was collected for the support of the poor 46 cents per capita. The highest amount was

in Centre county, 92 cents. In Potter it was 88 cents, in Elk 80 cents, in Montour, 84 cents, in Northumberland 73 cents, in Columbia 73 cents, in Union 72 cents. The lowest amount was in Bucks county, 17 cents.

The additional consolidated table will also show that the per capita amount of tax collected for the construction and repairs of streets, roads and bridges during the year was \$1.87. The largest amount will be found in the county of Allegheny, \$3.74. In Philadelphia it was only \$1.58. The figures in this column are fraught with considerable interest when comparisons are made of counties in which there are large cities with those whose territory is largely rural. It will also be seen from the same tabulation that the per capita tax collected for schools, etc., in the entire State was \$2.13. In the county of Philadelphia the per capita amount appropriated was \$2.70. In the county of Allegheny the amount collected was \$2.60; in Erie, \$2.64; in Venango, \$2.26; in Forest, \$3.13, the highest in the State. Regarding the amount of money collected for educational purposes as being, perhaps, for the most worthy cause of all, it would seem that the higher the tax, if properly and judiciously expended, the more creditable it is to the county where high rates prevail. From this standpoint, therefore, it would seem that Forest county occupies the highest position among the counties of the Commonwealth in the matter of maintaining her common schools. Generally, however, the highest per capita of school tax is found in those counties in which large cities are situated. The per capita amount of tax for other purposes, including the maintenance of township, borough, city and county governments, and other forms of taxes, such as licenses, is found to be in the entire State \$4.91. In Allegheny county the amount is \$14.07; in Philadelphia, \$10.08. A careful study of the per capita tax, as disclosed by column 4 of this additional tabulation, will show that the counties in which the larger cities are situated pay the largest per capita amount of taxes for the support of county and other local purposes. The total amount of taxes collected in the State was, as before stated, \$49,273,793.30, which, based upon the last census, amounts to a per capita tax of \$9.37. The highest per capita amount is reported from Allegheny county, \$20.86. In Philadelphia it was \$14.86, in Blair \$10.75, while in the little county of Forest it was \$9.36. It will also be seen that the counties in which the largest cities are situated pay the greatest per capita tax. Forest county, however, seems to be a marked exception to this rule, as the per capita in that county reaches a very high figure. In the same tabulation will be found a system of percentages by which comparisons may be made of the taxes collected for different purposes with similar collections made in other counties. This tabulation has been arranged in four columns showing:

1. Percentage of amount of taxes collected for the support of the poor to the total amount of taxes collected.

2. Percentage of amount of taxes collected for the construction and repairs of streets, roads and bridges to the total amount of taxes collected.

3. Percentage of amount of taxes collected for the support of the common schools, not including appropriations received from the State, to the total amount of taxes collected.

4. Percentage of amount of taxes collected for the maintenance of township, borough, city and county governments, including licenses, to the total amount of taxes collected for all purposes.

Applying this system of percentages to the State, it is found that of the total amount of taxes collected, five per cent. was devoted to the maintenance of the poor. In the county of Centre 17 per cent. of the total amount of taxes collected is devoted to this purpose, the highest percentage of any county in the Commonwealth. The county showing the next highest amount is Union with 16 per cent. A somewhat remarkable feature of these calculations is the fact that in Allegheny county but 2 per cent. is devoted to this purpose, the lowest of any county in the Commonwealth. The percentage of taxes for the construction and repairs of streets, roads and bridges in the entire State is 20 per cent. of the total amount collected. An examination of the tabulations showing these percentages discloses some very great disparities in the relative amounts. In the county of Adams the amount is 33 per cent., while in the county of Allegheny it is only 17 per cent., in the county of Philadelphia 11 per cent., and in the county of Lancaster 32 per cent. In the counties of Montour and Washington it was 47 per cent., and in Lackawanna county 7 per cent., the lowest amount. It must be admitted, however, that from an examination of the amounts returned from the latter county it would appear that a mistake had been made in making the return. Certainly it is not reasonable to suppose that there could have been expended for this purpose in Lancaster county \$300,569.35, while in Lackawanna there was expended but \$80,994.55. However, the returns from which these deductions are made are sworn to by the county commissioners, and so far as we have actual knowledge they are correct, although the disparity in the figures creates doubt with reference to them. Of the total amount of taxes collected for all purposes in the State 23 per cent. was devoted to educational purposes. The largest percentage was in Luzerne county, 46 per cent. In Northampton it was 43 per cent.; in Venango 42 per cent., and in Allegheny 12 per cent., the lowest amount. In column 4 of the additional tabulations having reference to taxes, it will be found that of the total amount collected in the State 52 per cent. was expended for the support of township, borough, city and county governments, to which, of course, is added

the amounts collected from licenses, etc. Under this classification the highest percentage is found in the county of Allegheny, where 69 per cent. is devoted to this purpose.

A study of these figures indicating percentages and comparing the deductions made therefrom with the published reports as to the amounts of taxes collected in former years for the several purposes mentioned, will be of interest in that they will show the disparities that exist between the different counties of the Commonwealth as to the amounts and percentages of money actually devoted to the several purposes indicated in the additional consolidated report having reference to taxes.

In closing these observations with reference to the tax returns, it is proper to add that the Department has taken the utmost care in securing from the boards of county commissioners complete and accurate returns, but it is impossible to say positively whether or not they are full and complete; reliance must be placed upon the integrity of the commissioners as to accuracy and completeness. The deductions made from the returns are vouched for as being correct, but the Department should not be held responsible if it should afterwards appear that the returns were inaccurate.

PART II.

ASSESSMENTS AND TAXES.

ASSESSMENT REPORTS.

The following Returns made by the Commissioners of the Several Counties of the Commonwealth, to the Secretary of Internal Affairs, for the Year 1897, Shows the Number of Taxables, the Number of Acres of Cleared and Timber Land, and the Amount at which all the Real and Personal Property, and the Matter and Things made Taxable by the Laws of this Commonwealth, were Valued, and the Amount of Taxes Assessed thereon for State and County Purposes, in the Various Assessment Districts of the Commonwealth, made Pursuant to the Several Acts of Assembly Relating Thereto.

ADAMS COUNTY.

					\$270,000 00

The occupation tax, which is known in Lancaster as poll tax, aggregates \$8,749. The custom for many years has been to assess each married man, not a freeholder, 25 cents poll or occupation tax, and each single man, not a freeholder, 50 cents poll or occupation tax. This tax is levied directly, without putting a valuation on the taxpayer's office, trade or occupation, and is not included in the above aggregate of county tax.

LAWRENCE COUNTY.

STATE OF PENNSYLVANIA,
CITY OF PHILADELPHIA,

Simon Gratz, Isaac H. Shields, Rinaldo A. Lukens, members of the board of revision of taxes, city and county of Philadelphia, being duly sworn or affirmed according to law, do depose and say that the foregoing return of property taxable in the said city and county is just and true to the best of their knowledge and belief.
Sworn and affirmed before me this 28th day of June, 1897.

GEORGE W. CLEMENT,
Notary Public.

SIMON GRATZ, ISAAC H. SHIELDS, RINALDO A. LUKENS.

\$36,700.00 appropriated by the county for the support of its poor for the year 1896.

The poor are maintained as a county charge. The amount appropriated in 1896 by the county commissioners for their support was \$36,700.00, and the collection of the same is included in columns Nos. 4 and 5.

\$17,167.01 was the amount expended by the county commissioners in repairs and construction of roads and bridges. The collection of the same is also included in columns Nos. 4 and 5.

The tax collected on occupations is included in columns Nos. 4 and 5.
 Uniontown borough does not levy a borough tax for the construction and repairs of streets, bridges, etc., the tax collected from hotel licenses being sufficient to construct the same.

DELAWARE COUNTY.

First Division. Showing the amount of taxes collected in the county for all purposes.						Second Division. Showing a specific return of all taxes on the subjects named.				
No. 1.	No. 2.	No. 3.	No. 4.	No. 5.	No. 6.	No. 7.	No. 8.	No. 9.	No. 10.	
Amount of taxes collected for the support of the poor.	Amount of taxes collected for the construction and repairs of streets, roads and bridges.	Amount of taxes collected for schools and school purposes, not received from the State, including any appropriation received from the State.	Amount of taxes collected for any purpose not embraced in columns 2 and 3, whether the same be State, county or local taxes. The poor are maintained as county charges. There is no separate levy for poor purposes. The money for the maintenance of the poor is drawn from the county funds upon presentation of a monthly statement and requisition by the board of poor directors and countersigned by the county commissioners. The amount thus expended for the year last past is \$53,136.70, which is included in the aggregates of columns 4 and 5.

PHILADELPHIA COUNTY.

First Division. Showing the amount of taxes collected in the county for all purposes.					Second Division. Showing a specific return of all taxes on the subjects named.				
No. 1.	No. 2.	No. 3.	No. 4.	No. 5.	No. 6.	No. 7.	No. 8.	No. 9.	No. 10.
Total amount of taxes appropriated for the support of the poor (being the appropriation made by city councils to the department of poor for the year 1897).	Total amount of taxes appropriated for the construction and repairs of streets, roads and bridges (being the appropriation made by city councils to the bureau of highways for the year 1897).	Total amount of taxes appropriated for schools and school purposes, not including any appropriation received from the State (being the appropriation made by city councils to the board of public education for the year 1897).	Amount of taxes collected for any purpose not embraced in columns 1, 2 and 3, whether the same be State, county or local taxes.	Total amount of taxes collected for all purposes, as set forth in the four preceding columns.	Amount of taxes collected on personal property (being the taxes collected for city purposes on horses and cattle and State tax).	Amount of taxes collected on occupations.	Amount of taxes collected on licenses of all kinds, including wholesale and retail liquor licenses.	Amount of taxes collected on the real estate of railroad corporations.	Amount of taxes collected on the real estate of corporations other than railroads, including limited partnerships.

City and county of Philadelphia,

\$522,592 17 \$1,649,071 16 *\$3,924,190 98 \$10,550,857 24 †\$16,646,711 55 \$1,370,041 46 Nothing. \$2,493,694 87 \$446,297 71 †

Note. The appropriation received from the State is paid into the city treasury and forms part of the appropriation made by city councils to the board of public education for school purposes.
†Note.—The above includes the taxes (city and State) collected during the year 1897, and is exclusive of receipts from any other sources such as gas, water, etc.
*Mem.—Of the above sum, \$1,081,244.69 was the amount which the county of Philadelphia was entitled to receive for the year 1897 as its proportion of the total sum appropriated for the support of common schools for 1897.
†Impossible to give.
